Disclaimer

The information contained in this 'Request for Proposal' (RFP) document (hereinafter referred to as "RFP") or subsequently provided to bidder(s), whether verbally or in documentary or any other form by or on behalf of the **Director, Directorate Of Survey & Land Records, Puducherry** (hereinafter referred to as "**DoSLR- Puducherry**") the "**Authority**" or any of their employees or advisors, is furnished to the bidder(s) on the terms and conditions set out in this RFP.

This RFP includes statements, which reflect various assumptions and assessments arrived at by the DoSLR- Puducherry relation to this project. Such assumptions, assessments and statements do not purport to contain all the information that each bidder may require. This RFP may not be appropriate for all persons, and it is not possible for the DoSLR- Puducherry its employees or advisors, to consider the investment objectives, financial situation and particular needs of each party who reads or uses this RFP. The assumptions, assessments, statements and information contained in this RFP, may not be totally complete, accurate, adequate or correct. Each bidder should, therefore, conduct its own investigations and analysis and should check the accuracy, adequacy, correctness, reliability and completeness of the assumptions, assessments, Statements and information contained in this RFP and obtain independent advice from appropriate sources.

Information provided in this RFP to the bidder(s) is on a wide range of matters, some of which depends upon interpretation of law. The information given is not an exhaustive account of statutory requirements and should not be regarded as a complete or authoritative Statement of law. DoSLR- Puducherry accepts no responsibility for the accuracy or otherwise for any interpretation or opinion on law expressed herein.

DoSLR- Puducherry, its employees and advisors make no representation or warranty and shall have no liability to any person or party, including any bidder under any law, statute, rules or regulations or tort, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expense which

may arise from or be incurred or suffered on account of anything contained in this RFP or otherwise, including the accuracy, adequacy, correctness, completeness or reliability of the RFP and any assessment, assumption, Statement or information contained therein or deemed to form part of this RFP or arising in any way in this RFP. DoSLR- Puducherry also accepts no liability of any nature whether resulting from negligence or otherwise, howsoever caused arising from reliance of any bidder upon the Statements contained in this RFP.

DoSLR- Puducherry may in its absolute discretion, but without being under any obligation to do so, update, amend or supplement the information, assessment or assumptions contained in this RFP.

The issue of this RFP does not imply that DoSLR- Puducherry is bound to select a bidder or to appoint the selected bidder, as the case may be, for providing services for implementation of GISPlatform for Land Records in the Union Territory of Puducherry as per the scope contained in this RFP; and DoSLR- Puducherry reserves the right to reject all or any of the bids or bidders without assigning any reason whatsoever.

Bidder shall bear all its costs associated with or relating to the preparation and submission of its bid including but not limited to preparation, copying, postage, online submission, delivery fees, expenses associated with any demonstrations or presentations which may be required by DoSLR- Puducherry or any other costs incurred in connection with or relating to its Bid. All such costs and expenses will remain with the bidder and DoSLR- Puducherry shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by a bidder in preparation for submission of the bid, regardless of the conduct or outcome of the bidding process.

1. About the RFP

The DoSLR- Puducherry, which is the custodian of land records of Puducherry launched “**Nilamagal**”, with the key objective to modernize land records, protect land titles and reduce disputes pertaining to lands by adopting computerization, business process automation and information transparency.

Puducherry will become a vibrant, dynamic and resurgent unit of federal India and aims to reinforce the position of Puducherry as an attractive destination and leverage IT / ITES to enhance citizen services and smart governance through e-Governance & g-governance in the Union Territory.

Although, Geo-spatial technology is in use at various levels in different Departments but potential of the Geospatial system has not yet been explored and leveraged in public administration & governance for planning and effective decision Support.

Since digitalized and accurate Land Records Information provides backbone to IT & location based Decision Support, an intensive need was felt for a collaborative and Integrated Geo-Spatial Platform for Preparation and effective sharing of available Land Records data in the form of Simple-to-use Apps for all stakeholders for GIS based planning, analysis, operations, monitoring and DSS requirements.

The DIRECTOR, DIRECTORATE OF SURVEY & LAND RECORDS, Puducherry invites proposals to provide services as per terms and conditions set out in this RFP document. You are invited to participate in the bid process as per the eligibility and technical qualification criteria of this RFP.

2. Tender Notice
Government of Puducherry
DIRECTORATE OF SURVEY & LAND RECORDS,
Puducherry.

**REQUEST FOR PROPOSAL FOR SELECTION OF AGENCY FOR
IMPLEMENTATION OF GIS PLATFORM FOR LAND RECORDS PREPARATION,
MANAGEMENT & DISSEMINATION IN THE UNION TERRITORY OF
PUDUCHERRY**

THE DIRECTOR, DIRECTORATE OF SURVEY & LAND RECORDS, Puducherry on behalf of Lt. Governor of Puducherry invites proposal from reputed and experienced Agencies/Companies/Organizations to participate in the competitive bidding process for “Implementation of GIS Platform for Land Records preparation, management & dissemination in the Union Territory of Puducherry.

The Bidders are required to refer to the tender documents for detailed process which is available at <https://pudutenders.gov.in>

The tender submission will be online and deadline to submit the proposals are available at <https://pudutenders.gov.in>

The contact details for the tender are:

The Director,
Directorate Of Survey & Land Records,
No.505, Revenue Complex,
Kamaraj Salai, Saram,
Puducherry -13.
Phone: 0413-2231201
Email: dos@py.gov.in

3. Letter of Invitation

**The Director,
Directorate Of Survey & Land Records,
Puducherry.**

The Director, Directorate Of Survey & Land Records, Puducherry invites proposals for the following work from the Agencies/Companies/Organizations having similar work experience.

The details of Tender Fees and Earnest Money Deposit are as below:

Sl. No.	Name of Work	Earnest Money Deposit (INR)	Tender Fee (INR)
1.	REQUEST FOR PROPOSAL FOR SELECTION OF AGENCY FOR IMPLEMENTATION OF GIS PLATFORM FOR LAND RECORDS PREPARATION, MANAGEMENT & DISSEMINATION IN THE UNION TERRITORY OF PUDUCHERRY	Rs. 10,00,000/-	Rs. 10,000/-

The Bidders have to submit a non-refundable tender fee online on the e-Tendering Portal

The Detailed instructions regarding submission of the tender fee and EMD are available on the e-Tendering portal. The timelines for downloading tenders and submission of technical and commercial bids will be as per the timelines mentioned in the Tender Notice.

**THE DIRECTOR, DIRECTORATE OF SURVEY & LAND RECORDS, Puducherry
RESERVES THE RIGHT TO ACCEPT OR REJECT ANY OR ALL TENDER
OFFERS WITHOUT ASSIGNING ANY REASON WHATSOEVER.**

**The Director,
Directorate Of Survey & Land Records,
No.505, Revenue Complex,
Kamaraj Salai, Saram,
Puducherry -13.**

18.	Contact Email id	dos@py.gov.in
19.	Mode of Payment :e Payment Only	As mentioned in pudutenders.gov.in ICICI gateway Note: refer to online bidding instructions attached

Note: RFP Document can be downloaded only from the below mentioned website. RFP will not be distributed in hard copy by the Department at the Department Premise. All bidders should visit websites for their consideration and submit tenders online .

5. Introduction About Puducherry

The Union Territory of Puducherry is a unique administrative entity formed by the amalgamation of four erstwhile French territories: Puducherry, Karaikal, Mahe, and Yanam. The roots of its revenue administration date back to a Royal Ordinance issued in 1826, which regularized landed property enjoyment and established the first formal land tax procedures. Historically known as the Bureau De Contributions during the French regime, the department transitioned into a modern Indian administrative setup following the De-jure transfer, with Puducherry being declared a Revenue District in April 1967. Today, the territory covers a total area of approximately 490 sq. km, organized into 8 Taluks, 20 Firkas, and 129 Revenue Villages. This geographically dispersed territory faces diverse climatic challenges, with Mahe and Yanam being vulnerable to the South West Monsoon, while the Puducherry and Karaikal regions remain high-risk zones for cyclones and tsunamis during the North East Monsoon. As the administration moves toward a high-tech future, the Directorate of Survey and Land Records has successfully digitized its legacy records under the Digital India Land Record Modernization Programme (DILRMP). The core of this digital evolution is the Nilamagal portal, which serves as the central repository for digitized land records, including FMBs, block maps, and village maps, allowing for online mutation and public access to settlement extracts. This robust land database provides the essential spatial foundation for the implementation of AgriStack, which aims to create a unified digital ecosystem for the agricultural sector and other such schemes. By integrating the land records from Nilamagal and collabland FMB with farmer-specific data, the administration is moving toward a system of automated mutation and targeted delivery of agricultural services. This synergy between the Nilamagal land registry and the AgriStack framework ensures that land ownership and crop data are seamlessly linked, fostering transparency and efficiency for the farming community across all four regions of the Union Territory.

6. GIS Platform for Land Records

6.1 Background

Information Technology is playing an important role in the country today. India is now one of the biggest IT capital of the modern world and all the major players in the world IT sector are present today in the country.

As envisaged by Hon'ble Prime Minister of India and Hon'ble Chief Minister of Puducherry the Union Territory of Puducherry will be a vibrant, dynamic and resurgent unit of federal India and aims to reinforce the position of Puducherry as an attractive destination and leverage IT / ITES to enhance citizen services and smart governance through e-Governance & g-governance in the Union Territory.

Although, Geo-spatial technology is in use at various levels in different Departments but potential of the Geospatial system has not yet been explored and leveraged in public administration & governance for planning and effective decision Support.

Since digitalized and accurate Land Records Information provides backbone to IT & location based Decision Support, an intensive need was felt for a collaborative and Integrated Geo-Spatial Platform for effective sharing of available data in the form of Simple-to-use Apps for all stakeholders for GIS based planning, analysis, operations, monitoring and DSS requirements.

6.2 Vision

“To harness GIS technology in transforming PUDUCHERRY into a modern and service driven Union Territory through better collaboration, efficiency and effectiveness; and to make PUDUCHERRY, a Union Territory with GIS enabled Land Records Information for all matters related to GIS based decision support in PUDUCHERRY”

6.3 Objectives

The establishment of “PUDUCHERRY GIS Platform for Land Records” is envisaged to:

- Leverage Geo-Spatial technology for Geo-enabling Land Records Information to Support the accelerated implementation & monitoring of projects through implementation of Web GIS solutions for efficient DSS and help aligning their objectives for national development.
- Standardize GIS based Land Records data for Departments use, published via standard web services
- Ensure availability of highly accurate Base maps integrated with Land Records information for decision support
- To be a major Support to SMART GOVERNANCE by embedding highly accurate GIS based Land Records Information in all aspects of planning and development at Union Territory / district / local levels, bringing transparency and make GIS based Land Records data available at all levels.
- Serve the basic needs of citizens by providing access to Land Records information; and also enabling a “crowd sourced” interactive process of citizen involvement in providing feed-back.

7. Definitions

- “System ” means application or software being currently used
- “Bidder” means eligible and reputed companies providing the services as mentioned in Scope of Work
- “Software” means the GIS platform and other software applications developed by the successful bidder for DoSLR as part of this RFP
- “Successful Bidder / Agency” means the bidder qualified as winner for the Contract as a part of tendering process.
- “Contract” means the agreement entered between respective Government of Puducherry and the Bidder, as recorded in the Contract form signed by the parties, including all the attachments

and appendices thereto, and all documents incorporated by reference therein

- “DoSLR, Puducherry ” means the Director, Directorate Of Survey & Land Records, Puducherry.

8. Stakeholders of the project

For the success of any project, it is important to identify right stakeholders and classify them correctly. Prioritization of these stakeholders on the basis of the impact of the project on them is an important activity at the beginning of the project. Stakeholders in this project at project initiation level are as follows:

- DoSLR’s Project Management Taskforce
- Project Management Unit (PMU)
- Officials of implementing Departments

9. General instruction to bidder

1. This RFP is not transferable.
2. Bidders are advised to study the RFP document carefully. Submission of the Bid shall be deemed to have been done after the careful study and examination of the RFP document with full understanding of its implications.
3. All bidders will submit tender document fee, EMD, Pre-qualification proposal, technical proposal and commercial proposal.
4. It is required to be noted that the DoSLR- Puducherry will be the final authority in this regard to award the work to the bidder.
5. The response to this RFP should be full and complete in all aspects. INCOMPLETE or PARTIAL BIDS shall be rejected. The bidder must quote considering the scope of work for all the items asked for in this RFP.
6. Department reserves the right to negotiate the rates with successful bidder in case the rates obtained are found unreasonable by the department.
7. The bidder shall bear all costs associated with the preparation and submission of the bid including cost of presentation for the purposes of

clarification of the bid. DoSLR- Puducherry will in no case be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

8. Kindly note that the bidder should take care that the costs quoted by the bidder sufficiently covers all expenses that the bidder shall incur for the project's scope of work which includes activities as described in Scope of Work in this RFP document.

9. All communications to DoSLR- Puducherry including this RFP and bid documents shall be signed on each page by the authorized representative of the bidder along with the authority letter attached.

10. Important limits and values

#	Parameter	Details
1.	Tender Document Fee	INR 10,000/-
2.	Bid Security Amount(Earnest Money Deposit – EMD)	INR 10,00,000/-to be submitted as prescribed in the section 13 of this RFP.
3.	Bid Validity Period	180 days from the date of submission of bids by the bidder(s) which may be extended , if required
4.	Period for furnishing Performance Bank Guarantee	within 15 days of the date of notice of award of the contract or prior to signing of the contract whichever is earlier
5	Performance Bank Guarantee Value	10% of the contract value from a nationalized scheduled bank
6.	Performance Bank Guarantee Validity period	3 months after the completion of the contract or completion of the project, whichever is later.
7.	Period for signing contract	Within 15 days from date of receipt of notification of award (Issuance of Letter of Intent)

11. Bidding Process

11.1 Tender Form and Tender Fee

The tender document can be downloaded online from designated website: <https://pudutenders.gov.in>.

The bid proposal submitted by the bidder shall accompany e-Payment confirmation for the tender document fee and the EMD for an amount mentioned in this RFP.

11.2 Timely submission

Bidders are solely responsible for timely submission of the bids in e-Tendering Portal. Proposals received after the last date and time of submission will not be considered. DoSLR- Puducherry may, at its discretion, extend deadline for submission of bids by amending the bid documents. In such case all rights and obligations of DoSLR- Puducherry and bidders subject to the deadline will thereafter be subject to the deadline as extended. Bidders are advised to visit the e-Tendering portal for updates on tender information.

11.3 Late bids

Any bid received by DoSLR- Puducherry after the deadline for submission of bids prescribed by DoSLR- Puducherry shall be rejected by the website.

11.4 Pre-bid Queries

DoSLR- Puducherry will host a Pre-Bid Meeting for queries (if any) from the prospective bidders. The date, time and place for the pre-bid meeting are given in the RFP schedule. The representatives of the interested Bidder's may choose to attend the pre-bid meeting at their own cost. The purpose of pre-bid meeting is to provide a forum to the bidders to clarify their doubts/seek clarifications or additional information, necessary for them to submit their bid.

All queries from the bidders relating to this RFP must be submitted in the format specified below.

Sl. No	RFP Documentreference (Volume, Section No., page no.)	Content of the RFP Requiring clarification	Points of clarification required
1.			
2.			
3.			
4.			

These queries should be mailed to the Department email ID (**dos@py.gov.in**) before the date and time specified in the Project Schedule with email subject line - <<Name of Company>>: Pre-bid Queries in respect of REQUEST FOR PROPOSAL FOR PREPARATION OF GIS-READY CADASTRAL BASE MAPS AND DEVELOPMENT OF WEBGIS PLATFORM FOR LAND RECORDS MANAGEMENT IN THE UNION TERRITORY OF PUDUCHERRY (Tender Reference No M-13/1237/2025).

Queries submitted post the above mentioned deadline or which do not adhere to the format provided may not be responded to by the Department. All the responses to the queries (clarifications/corrigendum) shall be made available on the e-Tendering portal

11.5 Language of the Bid

Bids prepared by the bidder and all subsequent correspondence & documents relating to the bids exchanged by the bidder and DoSLR-Puducherry shall be written in 'English' language. Any printed literature furnished by the bidder, written in another language, shall be accompanied by an accurate English translation, in which case, for purposes of interpretation of the bid, the English translation shall govern.

11.6 Hand written documents, Erasures or Alterations

Offers containing erasures or alterations will not be considered. There should be no handwritten material, corrections or alterations in the offer. Filling up of the information using terms such as “OK”, “noted”, “as given in brochure/manual” is not acceptable and may lead to the disqualification of the bid

11.7 Bid Prices

The bidder shall indicate in the proforma prescribed, the unit rates and total bid prices for the services, it proposes to provide under the Contract. Prices should be shown separately for each item mentioned in the Commercial Bid Format.

The bidder shall prepare the bid based on details provided in the RFP. It must be clearly understood that the Scope of Work is intended to give the Bidder an idea about the order and magnitude of the work and is not in any way exhaustive and guaranteed by Authority. The bidder shall carry out all the tasks in accordance with the requirement of the RFP & with due diligence. It shall be responsibility of the bidder to fully meet all requirements of the RFP and to meet objectives of the project.

If during the course of execution of the project any revisions to the work requirements like technical specifications, equipment sizing, etc. are to be made to meet the statutory and obligatory requirements / compliances of the project; such changes shall be carried out within the proposed price. The other changes that have a major impact on the commercials, will be taken up by Project Management Committee for an appropriate decision and such decisions shall be binding on the Bidder.

Note: Major change- A change requiring additional cost exceeding [5%] of original contract value, or that alters the fundamental technical architecture o described in the RFP.

11.8 Firm Prices

Prices quoted in the bid must be firm and final and shall not be subject to any upward modifications, on any account whatsoever. Department reserves the right to negotiate the prices quoted in the bid to effect downward modification. Bid prices shall be indicated in Indian Rupees (INR) ONLY.

Commercial bid should clearly indicate the price quoted without any ambiguity /qualifications whatsoever and should include all applicable taxes, duties, fees, levies, and other charges as may be applicable in relation to the activities proposed to be carried out.

Prices in any form or by any reason before opening the Commercial Bid should not be revealed, failing which the offer shall be liable for rejection.

11.9 Amendment of RFP document

At any time before the deadline for submission of bids, DoSLR – Puducherry may for any reason, whether at its own initiative or in response to a clarification requested by a prospective bidder, modify the RFP Document by amending, modifying and/or supplementing the same.

Any amendments / associated corrigendum will be available on e-Tendering portal.

All such amendments shall be binding on them without any further act or deed on behalf of DoSLR – Puducherry. Prospective bidders are advised to periodically visit the e-Tendering portal to find out any further corrigendum/addendum/notice published with respect to this RFP.

In the event of any amendment, DoSLR – Puducherry reserves the right to extend the deadline for the submission of the bids, in order to allow prospective bidders reasonable time in which to take the amendment into account while preparing their bids.

11.10 Clarification of offers

To assist in the scrutiny, evaluation and comparison of offers, DoSLR – Puducherry may at its own discretion, ask some or all bidders for clarification of their offer. The request for such clarifications and the response shall necessarily be in writing.

11.11 Opening of bids

Bid proposals will be opened online in presence of bidder's representatives (if they are present, else it will be opened in presence of the other representatives and officials present).

DoSLR – Puducherry will open all bids as per schedule mentioned in "Bidding Schedule" above. If all documents mentioned in each part of proposal are not found, then proposal/bid may be summarily rejected. The bidder's representative willing to attend the opening of the bids shall bring authorization letter and sign the attendance register.

The bidder's name, technical solutions given by bidder, bid prices and presence or absence of requisite bid security and such other details, as DoSLR – Puducherry at its discretion may consider appropriate, will be announced at the time of corresponding tender opening stages.

Bidders shall submit their bids through e-Tendering portal only. The bids submitted after due date and time shall not be considered for further evaluation, irrespective of the circumstances. ***DoSLR reserves the right to seek submission of physical bid documents in two separate covers after completion of tender opening in the online portal. The physical documents will be referred in case of difficulty in accessing online documents. In case of discrepancy between physical document and online documents, the documents and information available in online portal shall take precedence.***

Note:

1. Dates for Technical presentation and Commercial bid opening will be communicated later as part of the scrutiny process.
2. The commercial bids will be opened preferably as per defined tender schedule, unless delayed due to any unavoidable circumstances.

11.12 Contacting DoSLR – Puducherry

No bidder shall contact DoSLR – Puducherry on any matter relating to its bid, after opening of commercial bid till contract is awarded. If bidder wishes to bring additional information to the notice of DoSLR – Puducherry, he/she can communicate in writing to address given for correspondence. DoSLR – Puducherry reserves the right for consideration of such information.

Any effort by bidder to influence DoSLR – Puducherry in its decision on bid evaluation, bid comparison or contract award may result in disqualification of the bidders bid and forfeiture of the bid security amount.

11.13 Bid validity

The proposals shall be valid for a period of 180 days from the last date for submission of the tender proposal. Bids that are valid for a shorter period shall be considered as non-responsive and rejected. On completion of the validity period, unless the bidder withdraws his proposal in writing, it will be deemed to be valid until such time that the bidder formally (in writing) withdraws his proposal.

In exceptional circumstances, at its discretion, DoSLR – Puducherry may solicit the bidder's consent for an extension of the validity period. The request and the responses thereto shall be made in writing or by fax or email.

11.14 Address for bid correspondence

**The Director,
Directorate Of Survey & Land Records,**

**No.505, Revenue Complex,
Kamaraj Salai, Saram,
Puducherry -13.**

12. Award of contract

12.1 Award Decision

DoSLR – Puducherry or Competent Authority of Government of Puducherry shall finalize the successful bidder as per the evaluation process as mentioned in the RFP and DoSLR – Puducherry will award the contract to the successful bidder.

12.2 Right to Accept any Bid and to Reject any or All Bids

DoSLR – Puducherry reserves the right to accept or reject any Bid. DoSLR – Puducherry shall be under no obligation to accept the lowest or any other offer received in response to this RFP and to annul the tendering process and reject all Bids at any time prior to award of Contract, without thereby incurring any liability to the affected bidder(s) or any obligation to inform the affected bidder(s) of the grounds for DoSLR – Puducherry action.

12.3 Notification of Award

Prior to the expiration of the period of bid validity DoSLR – Puducherry will notify the successful bidder in writing or by fax or email, that his bid has been accepted. Upon the successful Bidder's furnishing of Performance Security DoSLR – Puducherry will promptly notify each unsuccessful bidder.

12.4 Signing of Contract

At the time DoSLR – Puducherry notifies the successful bidder that its bid has been accepted, the Director of Survey, DoSLR, Puducherry on behalf of the Government of Puducherry shall enter into a contract with the successful bidder within 15 days from date of receipt of notification of award. Terms and Conditions specified in the RFP document shall become the part of the contract document.

13. Bid Security (EMD – Earnest Money Deposit)

1. The Bidder shall furnish, as part of its pre-qualification bid, Bid Security (EMD), Tender Document Fee as mentioned in the tender notice and RFP. All payments to be made through E-Payment mode only.
2. The bid security (EMD) is required to protect DoSLR – Puducherry, against the risk of bidder's conduct, which shall warrant forfeiture of bid security.
3. Unsuccessful Bidder's bid security will be discharged/ returned as promptly as possible within 10 working days after the rejection of the bidder.
4. The successful bidder's bid security will be discharged upon the successful bidder signing the Contract and furnishing the Performance Bank Guarantee.
5. No interest will be payable by the DoSLR – Puducherry on the amount of the Bid Security.
6. The bid security may be forfeited:
 - a) If a Bidder withdraws his bid or increases his quoted prices during the period of bid validity or its extended period, if any; or
 - b) In the case of a successful bidder, if the Bidder fails to sign the Contract or to furnish Performance Bank Guarantee within the specified duration.

14. Performance Bank Guarantee

1. The successful bidder shall at his own expense, deposit with Director, DoSLR – Puducherry within 15 days of the date of notice of award of the contract or prior to signing of the contract whichever is earlier, an unconditional and irrevocable Performance Bank Guarantee (PBG) from a Nationalized / Scheduled Commercial Bank, for the due performance and fulfillment of the contract by the successful bidder.
2. The performance guarantee shall be denominated in the currency of the contract and shall be in the form of a bank guarantee.
3. This Performance Bank Guarantee will be for an amount equivalent to 10 % of contract value. All charges whatsoever such as premium; commission etc. with respect to the Performance Bank Guarantee shall be borne by the successful bidder.
4. The Performance Bank Guarantee shall remain valid until 33 months from the date of award for the base O&M term, extended proportionally if O&M is extended under Section 20.1.
5. The Performance Bank Guarantee may be discharged/ returned by Director, DoSLR – Puducherry upon being satisfied that there has been due performance of the obligations of the successful bidder under the contract. However, no interest shall be payable on the Performance Bank Guarantee.
6. In the event of the successful bidder being unable to service the contract for whatever reason, Director, DoSLR – Puducherry would invoke the PBG. Notwithstanding and without prejudice to any rights whatsoever of Director, DoSLR – Puducherry under the contract in the matter, the proceeds of the PBG shall be payable to DoSLR – Puducherry as compensation for any loss resulting from the successful bidder's failure to complete its obligations under the Contract. Director, DoSLR – Puducherry shall notify the successful bidder in writing of the exercise of its right to receive such

compensation within 14 days from the date of notification, indicating the contractual obligation(s) for which the bidder is in default.

7. Director, DoSLR – Puducherry shall also be entitled to make recoveries from the successful bidder's bills, performance bank guarantee, or from any other amount due to him, the equivalent value of any payment made to him due to inadvertence, error, collusion, misconstruction or misstatement.

8. The proforma for the PBG is provided in **Annexure F** of the RFP.

15. Fraud and Corruption

DoSLR – Puducherry requires that bidders must observe the highest standards of ethics during the entire process of tendering and during execution of the contract. In pursuance of this policy, DoSLR – Puducherry defines, for the purpose of this provision, the terms set forth as follows:

a. "Corrupt practice" means the offering, giving, receiving or soliciting of anything of value to influence the action of Director, DoSLR – Puducherry in contract executions.

b. "Fraudulent practice" means a mis-presentation of facts, in order to influence procurement process or the execution of a contract, to Director, DoSLR – Puducherry and includes collusive practice among bidders (prior to or after Proposal submission) designed to establish Proposal prices at artificially high or non-competitive levels and to deprive Director, DoSLR – Puducherry of the benefits of free and open competition.

c. "Unfair trade practices" means supply of services different from what is ordered on, or change in the Scope of Work which is given in the RFP.

d. "Coercive Practices" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the execution of contract.

DoSLR – Puducherry shall reject the bid proposal for award of contract, if it determines that the bidder recommended for award, has been found to have been engaged in corrupt, fraudulent or unfair trade practices. Once the contract is signed and if it is noticed that the successful bidder has indulged into the Corrupt / Fraudulent / Unfair / Coercive practices, it will be a sufficient ground for department for termination of the contract and initiate black-listing of the vendor.

16. Failure to agree with the Terms & Conditions of the RFP

Failure of the successful bidder to agree with the Terms & Conditions of the RFP/Contract shall constitute sufficient grounds for the annulment of the proposal or the award, in which event DoSLR – Puducherry may outrightly reject the proposal or make the award to the next Best Value Bidder or call for new bids.

17. Qualification Criteria and Bid evaluation

17.1 Eligibility and Qualification criteria

17.1.1 Pre-Qualification criteria for Bidder:

Sl. No.	Clause	Documents Required
1	The Bidder should be a proprietorship firm/ partnership firm / registered company under Company Registration Act of India engaged in trade or business of computers & peripherals/software development/ IT services /Ecommerce as on the date of issue of the Notice Inviting Tender	a) Valid documentary proof of: - If a proprietorship firm, Certificate of Registration under central sales Tax (Registration and Turnover Rules 1957) / Vat Registration certificate. / GST certificate - If partnership firm / registered company under companies Act, Certificate of incorporation / Registration Certificate. -List of board of Directors/partners with shareholdings to be provided for partnership firm / registered company under Company Registration Act of India.
2	The Bidder should have at least 05 years of experience in trade or business of computers & peripherals,software development, IT services, Ecommerce and specifically GIS-based land records / cadastral mapping on the date of issue of Notice Inviting Tender.	a) Valid documentary proof of: -Copy of Order copy / Work Order / PO / Contract And work completion certificate signed by a competent authority should be submitted.

3	The Bidder must have an average annual financial turnover of at least Rs.5 Crores over the last 03 financial years ending March 2026.	a) Valid documentary proof of: <i>- Balance sheet clearing indicating the Year& Turnover details. OR</i> <i>- CA Certificate certifying average annual turnover for three years or individual turnover for last three years.</i>
4	The Bidder should submit a banker's letter from a Financial Institution / Bank indicating the financial plan or support for this project/contract.	a)Valid documentary proof of: <i>-Bankers/Institutions/Finance Company letter must confirm available credit / working capital facility of not less than 25% of bidding project value.</i> Note: generic letters without a quantum will be rejected
5	The Bidder shall submit a formal declaration or undertaking on their official letterhead affirming the commitment to establish a dedicated project support office within the Union Territory of Puducherry in the event of being declared the successful bidder. This support office must be made fully operational within 45 days of the award of contract and staffed with a minimum of three (03) qualified support engineers and a GIS expert to ensure prompt technical assistance, maintenance, and seamless coordination with the Department throughout the contract period.	a)Valid documentary proof of: <i>-A formal Declaration or Undertaking on the Bidder's official letterhead, to be submitted as part of the Technical Bid.</i>

6	The Bidder should have a valid GST Registration as on the date of issue of Notice Inviting Tender.	a)Valid documentary proof of: <i>- Valid Copy of GST Registration</i>
7	The Bidder shall not be eligible if it has presently been blacklisted by any Union Territory/ Central Government/ PSU on the date of Notice Inviting Tender / Bid Submission.	a)Valid documentary proof of: <i>- A signed copy of the undertaking with seal.</i>
8	The sub-contracting of any part of the assigned work to any third party remains strictly prohibited in any form or manner. No Consortium is allowed.	<i>Attach a formal undertaking or declaration, duly signed by an authorized signatory on the organization's official letterhead, affirming that the entire scope of work assigned under this contract shall be executed exclusively by the bidding entity.</i>

17.2 Technical Evaluation criteria

Sl.No.	Parameter	Points/Marks
1	Technical proposal evaluation for meeting the requirements as per RFP for GIS Platform required by DoSLR (i) Past Relevant Projects (GIS/WebGIS/cadastral) (excluding Agristack project implemented in other states/UT's) (15 marks) (ii) Agristack Project - prior experience in the deployment and integration of AgriStack modules in other State/UT Governments. (5 marks)	50

	(iii) Compliant to Scope of Work (15 marks) (iv) Technical Expertise (15 marks)	
2	Presentations to DoSLR and question answers by DoSLR to evaluate the competency of the proposed solution (i) Understanding of requirements (5 marks) (ii) Implementation Methodology (5 marks) (iii) Strengths in domain area (10 marks) (iv) Readiness for the project (5 marks) (v) Capability to reference the survey sheets (5 marks)	30
3	Work Plan, Methodologies, Project management experience, schedule as determined by DoSLR from technical document offered or specific presentations /discussion (i) Implementation Strategy (5 marks) (ii) Documentation of Plan (5 marks) (iii) Presentation of detailed time-line chart (5 marks) (iv) Suggested packages / tools / technologies / support during execution (5 marks)	20
	Total:	100

MINIMUM MARK FOR THE QUALIFICATION IN THE TECHNICAL EVALUATION IS 70 OUT OF 100 (TECHNICAL SCORE). FINANCIAL BIDS OF ONLY THOSE WHO TECHNICALLY QUALIFY WILL BE OPENED.

17.3 Bid Submission

The 3 sections to be submitted are as follows:

1. Pre-Qualification Related Documentation
2. Technical Proposal

3. Commercial Proposal

Each of the 3 sections is required to be submitted by the bidder. DoSLR – Puducherry will not be responsible for any incomplete or partial submission and it will be not considered. This may also attract disqualification.

Pre-Qualification Section	• Bidder's response to the Pre-Qualification Criteria defined in this RFP shall be submitted online. • The Pre-Qualification related documentation shall be prepared in accordance with the requirements specified in this RFP and in the formats prescribed in the RFP Document. • Pre-Qualification proposal would be considered only if it contains all the supporting documents along with the required Tender Document Fee and EMD in Original submitted to DOSLR – Puducherry. Scanned Copy of Receipts of these payments need to be submitted as a part of Online Submission. • The Tender Payments in original being submitted to DOSLR - Puducherry office before the Bid Submission Date shall be marked with envelope as - a)Tender Payments - b)Tender Reference Number • Formats for relevant documents to
----------------------------------	--

	be enclosed in this bid have been mentioned in the Annexure apart from the documents mentioned in the RFP. • Pre-Qualification Proposal should NOT contain commercials of the Project, in either explicit or implicit form.
Technical Proposal	• Technical Proposal shall be submitted online as per the RFP reference number. • The Technical Proposal shall be prepared in accordance with the requirements specified in this RFP and in the formats prescribed in the RFP Document (Annexure D- Technical Bid Format). Along with that bidder should also enclose all relevant documents required for technical evaluation mentioned in Technical Evaluation Framework. • Technical Proposal should NOT contain / disclose commercials of the Project, in either explicit or implicit form. • Conditional technical proposal shall be liable for rejection. • Bidder to comply with all the specifications of hardware and software as per the RFP. Partial compliance to the specification

	outlined in the RFP are liable for rejection. Bidder to submit clear compliance document along with technical bid.
Commercial	Financial Quotes shall be Submitted online ONLY in the prescribed format on e-Tendering website
Proposal	Price quotation accompanied by vague and conditional expressions such as "subject to immediate acceptance", "subject to confirmation", etc. will be treated as being at variance and shall be liable to be summarily rejected.

DoSLR-Puducherry will not accept submission of a proposal in any manner other than that specified in the RFP Document. Proposals submitted in any other manner shall be treated as defective, invalid and rejected.

Pre-Qualification Proposal, Technical and Commercial proposals should be signed by an authorized person of the bidder. The Pre-qualification proposal should be submitted along with a certified true copy of a board resolution/power of attorney empowering authorized signatory to sign/act/execute documents binding the bidder to the terms and conditions detailed in this proposal.

Bidders must submit both the Pre-Qualification Proposal and the Technical Proposal electronically through the portal, as well as a physical hard copy. The hard copy must reach the Directorate on or before the closing date and time for bid submission.

A valid PoA / Board resolution shall be submitted for the bidder.

Proposals must be direct, concise, and complete. DoSLR–Puducherry will evaluate bidder’s proposal based on its clarity and completeness of its response to the requirements of the project as outlined in this RFP.

17.4 Evaluation Committees

The technical bids will be opened before the Tender Evaluation Committee on the e-Tendering system. Tender Evaluation Committee (TEC) constituted by the Administrative secretary, Government of Puducherry shall evaluate the tenders. The decision of the Evaluation Committee in the evaluation of the Technical and Commercial bids shall be final. No correspondence will be entertained outside the process of negotiation / discussion with the Committee.

17.5 Bid evaluation

A two-tier evaluation procedure will be adopted for evaluation of proposals, with the Pre- Qualification, Technical evaluation being completed before the Commercial proposals are opened and compared. Two stage bid evaluation shall be followed for the bid evaluation. The first stage will be evaluation against Pre-Qualification criteria and technical criteria. The second stage will be Commercial evaluation.

The details of evaluation have been explained below:

17.5.1 First stage – Pre-Qualification and Technical evaluation

The first stage of evaluation would involve examination of the bid documents of each of bidders against the “Eligibility & Qualification Criteria” and submission of EMD, Tender Document Fee & Tender fees. During pre-qualification bid preparation, the bidder is required to strictly adhere to the **pre qualification bid format** provided in this document.

All bidders clearing Pre-Qualification evaluation will be evaluated on the technical criteria mentioned in the “**Technical Evaluation framework**”. This is to ensure that the technical skill base, experience and financial

capacity and other bidder attributes claimed therein are consistent with the needs of this project. DoSLR–Puducherry may ask bidder(s) for additional information, visit to bidders’ site and/or arrange discussions with their professional, technical faculty to verify claims made in bid documentation.

During technical bid preparation, the bidder is required to strictly adhere to the **technical bid format** provided in this document. The format for the same has been detailed in **Annexure D– “Technical Bid Document Format”**.

17.5.2 Technical Evaluation Framework

Bidders who have qualified as per the Sections of Pre-Qualification Criteria of this RFP document shall be evaluated and scored by the Tender Evaluation Committee on the basis of technical evaluation criteria mentioned, assessing each bidder’s ability to satisfy the requirements set forth in the document.

Minimum mark for qualification in the Technical Evaluation is 70 out of 100 (Technical Score).

Note:

1. Bidder should give presentation (approx. duration of one hour) with respect to detailed approach and methodology on the evaluation parameters mentioned, at the date and time specified by the department for technical bid presentation.
2. DoSLR–Puducherry reserves right to visit bidder’s customers where such a similar project execution has taken place.

17.5.3 Second Stage – Commercial Evaluation

Commercial Evaluation of only those bidders who obtain minimum 70 marks in Technical Evaluation shall be opened. Total Cost of ownership shall be calculated based on price summary given in **Annexure G – “Commercial Bid format”**.

Commercial bid opening will be carried out as per the date communicated to bidder post the evaluation of the Technical proposals. The evaluation done by the Tender evaluation committee will be final and binding on the bidders.

A substantially responsive bid is one, which conforms to the requirements, terms, conditions and specifications of the Request for Proposal without material deviation. (A material deviation is one which affects in any substantial way the functionality, scope, quality, or performance of the deliverables, or which limits in any substantial way, inconsistent with the Request for Proposal.)

DoSLR-Puducherry reserve the rights to accept or disqualify the proposals in case of any material deviation which would affect unfairly the competitive position of other bidders presenting substantially responsive Bids.

Tender Evaluation committee will examine the bids to determine whether they are complete, whether any computational error have been made and whether the bids are generally in order.

DoSLR-Puducherry may conduct clarification meetings with each or any bidder to discuss any matters, technical or otherwise Bids received without tender document fee, tender fee and EMD shall be rejected.

DoSLR-Puducherry may waive any minor informality or non-conformity or irregularity in a Bid, which does not constitute a material deviation. Commercial proposal of only those bidders who obtain minimum 70 marks in Technical Evaluation shall be opened on e-tendering system. The bidders are required to submit the commercial proposal in the format given in Annexure G – “Commercial Bid format” in the e-tendering portal.

1. Commercial bid opening will be carried out as per the date communicated to bidder post the evaluation of the Technical proposals.

2. L1 shall be the bidder, who is technically qualified and has quoted the lowest cost as per Annexure G – “Commercial Bid format”.

3. In case there is a tie for L1 due to same lowest cost quote from two or more bidders, the bidder who has secured higher marks in the Technical Evaluation process shall be considered as L1.

4. L2, L3, L4, etc. shall be selected as per the same procedure described above as per the increasing order of commercial quote.

In case if L1 is not interested, then L2 will be asked to match L1 rates. Only 1 bidder at a time will be given a chance to match L1. In case the bidder asked to match rates is not ready, then the chance will be given to the next lowest bidder. In case no other bidder is ready to match L1 rates, the RFP will be processed for re-tendering. Bidder invited to match L1 rates must respond in writing within 5 working days. Non-response within this period shall be treated as a refusal.

17.6 Rejection Criteria

Besides other conditions and terms highlighted in the RFP, bids may be rejected under following circumstances:

17.6.1 General Rejection Criteria

- a. Conditional Bids
- b. If the information provided by the Bidder is found to be incorrect/ misleading/fraudulent at any stage / time during the Tendering Process
- c. Any effort on the part of a bidder to influence the bid evaluation, bid comparison or contract award decisions
- d. Bids received after the prescribed time & date for receipt of bids
- e. Bids without signature of person (s) duly authorized on required pages of the bid
- f. Bids without power of attorney/ board resolution

17.6.2 Pre-Qualification Rejection Criteria

- a. Bidders not complying with the Eligibility Criteria given in this RFP
- b. Pre-Qualification bid containing commercial details
- c. Revelation of Prices in any form or by any reason before opening the Commercial Bid
- d. Failure to furnish all information required by the RFP or submission of a bid not substantially responsive to the RFP in every respect

17.6.3 Technical Rejection Criteria

- a. Technical Bid containing commercial details
- b. Revelation of Prices in any form or by any reason before opening the Commercial Bid
- c. Failure to furnish all information required by the RFP or submission of a bid not substantially responsive to the RFP in every respect
- d. Bidders not considering for the complete scope of Work as indicated in the RFP, addendum (if any) and any subsequent information given to the bidder
- e. Bidders not complying with the Technical and General Terms and conditions stated in RFP
- f. Bidder not confirming unconditional acceptance of full responsibility of providing services in accordance with the Scope of work and Service Level Agreements of this RFP

17.6.4 Commercial Rejection Criteria

- a. Incomplete Price Bid
- b. Price Bids that do not conform to the RFP's price bid format
- c. Total price quoted by the bidder does not include all statutory taxes and levies applicable
- d. If there is an arithmetic discrepancy in the commercial bid calculations, the Evaluation Committee shall rectify the same. If the Bidder does not accept the correction of the errors, its bid may be rejected.

17.7 Conditional offers

The Bidder should abide by all Terms and Conditions specified in the RFP Document. Conditional offers shall be liable for disqualification.

18. Scope of work

The Directorate of Survey & Land Records, Government of Puducherry intends to engage with competent agency for establishing integrated Web GIS Platform to meet Land Records digitalization, management & dissemination requirements of the State.

The solution shall be aligned with open standards (OGC WMS / WFS / WMTS / WCS), the national ULPIN (Bhu-Aadhaar) framework, the India Digital Ecosystem of Agriculture (IDEA) standards for interoperability with the Farmer Registry and the Digital Crop Survey, and shall consume data from DoSLR's Record of Rights (Nilamagal / equivalent) on a strictly read-only basis. Read-only applies to baseline data pulls; approved mutations initiated through the WebGIS Online Mutation menu shall be written back to Nilamagal through a controlled approval workflow.

18.1 Key Principles of Scope

The Scope of Work and the Agency's execution of the engagement shall be governed by the following principles:

- Parcel-by-parcel FMB reconstruction is the core activity of this engagement.** Every Field Measurement Book (FMB) sheet in the Union Territory shall be reconstructed parcel by parcel from the measurements, bearings, chain lines, offsets and call-outs on the FMB, drawn against the drone orthomosaic supplied by DoSLR. The existing CollabLand / Nilamagal shapefiles and the legacy sheets shall be used as reference inputs only.
- The entire solution shall be built on a fully open-source technology stack.** The WebGIS Platform, the mobile application and all back-end services shall be built on a fully open-source technology stack. All experience that the Bidder claims for

Pre-Qualification and for Technical Evaluation shall also be on an open-source technology stack, supported by work orders and completion certificates.

- The solution shall be hosted on Government-approved cloud infrastructure within India.** The solution shall be hosted on a Government-approved cloud service provider (CSP) that is empanelled by the Ministry of Electronics and Information Technology (MeitY). Hosting on a non-approved CSP or on non-Government on-premise infrastructure shall be treated as non-responsive. Cloud hosting charges shall be reimbursed by DoSLR on an actual-usage pass-through basis at cost, without any mark-up, administrative fee or handling charge. As and when DoSLR notifies readiness of the State Data Centre or State Cloud, the entire workload shall be migrated to it within the period specified by DoSLR. Detailed cloud, disaster recovery, data residency, security and exit requirements are set out in the Cross-cutting Technical Requirements section of this RFP (Sec.18.6).

The scope of this RFP is organised as three (3) Modules as listed below.

- Module 1:** Base Data Preparation & Cadastral Mapping – parcel-by-parcel FMB reconstruction, stitching into village / taluk / region mosaics, drone-orthomosaic georeferencing, rubber sheeting, multi-tier QC, and bi-directional mutation ingest from RoR (Nilamagal application) and vice versa.
- Module 2:** WebGIS Platform Development – data visualisation, core functionalities, editing tools, RoR attribute integration, AgriStack Farmer Registry and Digital Crop Survey integration, ULPIN management, Discrepancy & Anomaly Analytics with multi-tier QC and role-based user access.
- Module 3:** Automated Georeferencing & Field Integration – Android mobile application for field officers (consumption of DGPS / GNSS

Rover points supplied by DoSLR or its survey partner), web-based point ingestion and visual georeferencing workbench inside the WebGIS Platform, and a server-side automated georeferencing engine with multi-tier QC.

The detailed scope of each Module is described in the following sections. Expected deliverables and cross-cutting requirements (scalability, OGC compliance, security, RBAC, timelines, milestones, SLAs and technical architecture) are specified at the end of this Section.

18.2 Module 1: Base Data Preparation & Cadastral Mapping

The objective of Module 1 is to reconstruct the cadastral fabric of the Union Territory parcel by parcel from the FMBs, stitch the reconstructions into seamless village / taluk / region mosaics, and georeference the mosaics to the drone orthomosaic and to the ground control points supplied by DoSLR. This is the core and most technically demanding activity of the engagement. The existing CollabLand / Nilamagal shapefiles and legacy sheets shall be used as reference inputs only. The Bidder shall deliver all work on a fully open-source technology stack.

18.2.1 Source Data Collation, Stocktaking and Reference Inputs

- Collect and inventory the primary reconstruction inputs: (a) the digital FMB sheets supplied by DoSLR, which carry the measurements, bearings, chain lines, offsets and call-outs of each parcel, per village / FMB number; and (b) the drone orthomosaic supplied by DoSLR or its survey partner, which is the reference base map against which every FMB is drawn.
- Collect and inventory the reference inputs, which shall be used as cross-check inputs only: CollabLand / Nilamagaldigitised FMB shapefiles with attribute tables (Survey No., Sub-Div No., extent, classification, owner reference key);vector village maps; digitized RoR extracts; prior survey reports; and historical mutation registers.

- Prepare a Source Data Register per village listing: FMB sheet count and legibility grade; number of parcels expected from the FMB record; number of parcels present in the CollabLand shapefile; scale and year of the source survey; data provenance; and any known gaps or mismatches against the RoR parcel count.
- Establish – in consultation with DoSLR – the reconstruction priority order (village / taluk / region sequence), the parcel-level exception register for illegible / missing FMB sheets, and the escalation protocol for resolving discrepancies between the FMB sketch, the CollabLand vector, the legacy sheets and the RoR record.

18.2.2 FMB Reconstruction (Parcel-by-Parcel, from the FMB)

- Sheet preparation: load the digital FMB sheet supplied by DoSLR into the reconstruction environment and geo-rectify the FMB to its approximate on-ground footprint using the drone orthomosaic and any on-sheet reference ticks, north arrow and scale bar.
- Reconstruction from measurements: for every parcel on every FMB, compute and draw the parcel polygon from the bearings, chain lines, offsets and call-outs written on the FMB; apply the recorded scale and orientation; and honour the on-sheet topology (adjacency, shared sides and interior divisions) exactly as shown by the Department surveyor/ Draughtsman.
- Base map anchoring: while drawing, use the drone orthomosaic as the reference base map so that physically visible features (roads, bunds, compound walls, water bodies, buildings) are to be matched; where the FMB-computed polygon conflicts with the orthomosaic, log the conflict in the reconstruction exception register.
- Cross-checks (not substitutes): compare the reconstructed polygon with (a) the CollabLand vector where it exists; (b) legacy sheets where it exists; and (c) the RoR recorded extent. Deviations beyond a configurable threshold shall be flagged for DoSLR review. The

reconstructed polygon remains the candidate for the new layer unless DoSLR directs otherwise.

- Closure and accuracy targets for individual FMB reconstruction: geometric closure error $\leq 1/1000$ of the perimeter; attribute completeness $\geq 99\%$; parcel area deviation $\leq 3\%$ against the FMB-written extent.
- Exception handling: FMB sheets that are illegible, missing or internally inconsistent shall not be forced through reconstruction. They shall be entered in a written exception register, triaged with DoSLR, and resolved through targeted re-surveying under DoSLR's separate survey programme or through accepted use of the CollabLand vector as a provisional placeholder pending re-survey.
- QC on reconstructed FMBs: every reconstructed FMB shall pass through rule-based automated QC (closure, topology and extent) and visual QC against both the digital FMB and the drone orthomosaic. Minimum 10% cartographer sample per village and 100% of exception-register parcels.

18.2.3 Mosaicing Reconstructed FMBs into Village / Taluk / Region Maps

- Edge-matching: reconcile shared edges between adjacent FMBs by reading the abutment call-outs on each FMB and snapping within a DoSLR-approved tolerance; where the two FMBs disagree on the shared edge, log the conflict and resolve per the reconstruction exception register (not by arbitrary midpoint averaging).
- Village-level stitching: produce a topologically clean village map (no gaps, no overlaps, no slivers, single-ringed exterior geometries, closed polygons); maintain the hierarchical topology (Parcel $\rightarrow$ FMB $\rightarrow$ Village $\rightarrow$ Taluk $\rightarrow$ Region) with a lineage key from every parcel back to its source FMB sheet and page.
- Resolution of conflicts with reference datasets: if the stitched village map conflicts with the CollabLand vector or village map, the

stitched reconstruction prevails; conflicts are logged with before/after snapshots for DoSLR adjudication; the CollabLand vector shall be validated before reconstruction with due approval.

- Taluk / region mosaic: Enroll village maps up to taluk and region level ensuring consistency of common boundaries and administrative overlays; publish a per-village and per-taluk mosaic QC report.

Georeferencing the Reconstructed Mosaic

- Georeference the reconstructed village / taluk / region mosaic to a uniform spatial reference system (as specified by DoSLR) using a combination of (a) drone orthomosaic imagery provided by DoSLR or its survey partner, and (b) Ground Control Points (GCPs) supplied by DoSLR.

Note: All spatial data shall be in WGS 84 (EPSG:4326) for storage, with display in India Zone II (Lambert Conformal Conic / Everest datum) or as directed by DoSLR in the Project Inception Report

- Apply affine / polynomial / spline / thin-plate spline transformation as appropriate to the local distortion; document the transformation choice per village and justify in the QC report.

18.2.4 Quality Control (Cadastral Layer)

- Three-tier QC: (i) rule-based automated QC (topology, attribute, spatial reference); (ii) visual QC by trained cartographers with sampling plan; (iii) field spot-check in coordination with DoSLR for a minimum 1% sample, with results reconciled before acceptance.
- Publish a per-village QC Report documenting error categories, resolutions, residuals and a signed acceptance from DoSLR.
- Minimum acceptance criteria: $\geq 95\%$ parcels pass positional accuracy(Positional accuracy threshold: $RMSE \leq 1.0$ m at cadastral scale, in accordance with DILRMP standards for cadastral mapping); 100% pass topology validation; $\geq 99\%$ attribute completeness.

18.2.5 Bi-directional Mutation Ingest from RoR and back to ROR

- Implement a two-way, mutation-ingest pipeline that consumes RoR mutation events – (i) sub-division, (ii) amalgamation, and (iii) attribute-only changes (owner, tenant, classification) – from DoSLR's Nilamagal / RoR system and applies the corresponding geometry and attribute updates on the cadastral layer. The direction of flow is both way-RoR to WebGIS and vice versa.
- Each ingested mutation shall produce an audit record with before/after geometry, attributes, timestamp, linked RoR transaction identifier and ULPIN lineage. The cadastral layer shall be time-aware: queryable as of any date.

18.3 Module 2: WebGIS Platform Development

The objective of Module 2 is to design, build, host and operate a secure, scalable, OGC-compliant WebGIS Platform that serves the cadastral layer and integrated attribute data to DoSLR officials, allied line departments, and – in a controlled manner – to citizens. The platform shall be accessible through modern web browsers and shall expose open APIs for programmatic consumption.

18.3.1 Data Visualisation

- Drone orthomosaic layer – published as a raster / tiled service (WMTS / XYZ) with base visualisation at 1:500 and progressive zoom to village / taluk / region scale. Visualisation shall support 1:250000 (UT overview) to 1:500 (individual parcel inspection) with scale-dependent rendering at each zoom level.
- Parcel layer (polygon) – rendered with boundary styling, parcel labels (Survey No. / Sub-Div), and symbology driven by attribute classes (e.g., land classification, ownership type).
- FMB layer – the reconstructed FMB sheet outlines and their call-outs, toggleable for verification.

- Administrative boundaries – Region, Taluk, Village, Ward and block boundaries.
- Base maps – OSM, hybrid satellite, and a DoSLR-approved base map. Users shall be able to switch base maps and control layer opacity.
- Rendering performance target: tile response ≤ 300 ms at p95 for pre-cached tiles; map load ≤ 2 s at p95 for typical village views.

18.3.2 Core Functionalities

- Parcel search by Survey Number and Sub-Division Number, by Village + Survey No., by ULPIN, by owner name (where authorised), and by address/location text. Owner name search is restricted to authenticated, authorised officers only. All such queries shall be logged. No owner PII shall be visible in public or anonymous access tiers.
- Navigation and zoom: pan, zoom in/out, zoom to extent, zoom to bookmark, scale bar, coordinate display (lat/long and projected).
- Measurement tools: distance (geodesic and planar), area (hectares / sq. m / sq. ft / acre / cent), bearing, buffering.
- Spatial queries: point-in-parcel; parcels within distance; parcels intersecting a drawn polygon; parcels along a corridor; parcels within an administrative unit.
- Attribute display: on click of a parcel, a side panel shall display the full attribute record (geometry-derived extents, RoR attributes, mutation history, ULPIN, linked FR records for agriculture parcels).
- Print / export: high-resolution PDF map export with legend, scale and title block; CSV / Shapefile / GeoJSON export subject to role permissions. All export events are logged with user, timestamp, and geographic extent.

18.3.3 Editing Tools

- Polygon editing: vertex add / move / delete; parcel sub-division by drawing a split line; parcel amalgamation by selecting adjacent

parcels; snapping and tolerance controls. Edits shall be committed directly by designated power users and shall be captured in an immutable audit log.

- Rubber sheeting (within the tool): designated power users shall be able to apply rubber-sheet transformations to a selected area, using additional control points, with preview and revert.
- Version control and audit: every change shall be versioned; the platform shall support rollback to any previous version; an immutable audit log shall record user, timestamp, action, before/after geometry + attributes.

Note: Version history shall be retained for minimum 7 years on hot/warm storage with instant retrieval. Older versions may be archived to cold storage with retrieval SLA of 24 hours.

18.3.4 Revenue Data Integration

- The WebGIS Platform shall maintain a bidirectional integration with DoSLR's Nilamagal (RoR, Patta, Chitta, Adangal) and Collabland systems, consuming parcel-level data through secure APIs or change-data-capture while facilitating updates via an Online Mutation menu. Any data modifications initiated within the WebGIS environment must undergo formal digital approval by the designated DoSLR official before being synchronized back to Nilamagal and Collabland, ensuring that both textual records and spatial geometries are consistently updated across all three platforms upon authorized validation.
- Attribute fields shall include (illustrative): Survey No., Sub-Div No., Village, Taluk, Region; Owner(s) and share; Tenant(s) and share; Classification (Nanjai / Punjai / Manavari, etc.); Extent as recorded in RoR; Land Revenue / Kist; Encumbrances; Mutation history with dates.

- Support certified extracts: the platform shall generate a parcel extract combining map and RoR attributes, digitally signed, issuable via DigiLocker or other facilities admitted by DoSLR.
- The WebGIS Platform shall incorporate a dedicated Online Mutation menu to facilitate the provision of updated land records for the AgriStack project, adopting an integrated digital workflow similar to the model implemented in neighboring States. This module will enable the end-to-end processing of land record modifications directly within the GIS interface; upon formal digital approval by the designated DoSLR authority, the system shall automatically trigger synchronized updates to both the Nilamagal textual database and Collabland spatial records, ensuring a unified and real-time data flow essential for the national AgriStack ecosystem.

18.3.5 Agriculture Data Integration (AgriStack – Farmer Registry and Digital Crop Survey)

- API integration with the AgriStack Farmer Registry (Farmer ID) maintained by the Department of Agriculture & Farmers Welfare – so that every agriculture parcel on the cadastral layer can be linked to its cultivator(s) / tenant(s), and so that Farmer ID → parcel and parcel → Farmer ID lookups are supported on the WebGIS.
- API integration with the Digital Crop Survey (DCS) / Crop Sown Registry – so that the WebGIS can display the current-season crop sown, historical crop rotation, and crop-season summaries at parcel / village / taluk / region scale.
- Reverse integration: publish authoritative parcel geometry, ULPIN and RoR-linked attributes back to the Farmer Registry and DCS so that the agriculture stack relies on a single authoritative cadastral spine maintained by DoSLR.

- The integration shall be consent-based and conform to the India Digital Ecosystem of Agriculture (IDEA) framework and the AgriStack Reference Architecture; no personally identifiable information (PII) shall be displayed in public / citizen views; use tokenised references where required by UIDAI and DPDP Act norms.

Agency shall submit a Data Protection Impact Assessment (DPIA) per the DPDP Act, 2023 as part of the SRS deliverable, and shall execute a Data Processing Agreement with DoSLR before accessing any personal data of citizens.

18.3.6 Unique Land Parcel ID (ULPIN / Bhu-Aadhaar)

- Generate, assign and reconcile the 14-digit Unique Land Parcel Identification Number (ULPIN, also known as Bhu-Aadhaar) for every parcel in the Union Territory, in line with the national ULPIN specification published by the Department of Land Resources, Ministry of Rural Development.
- Handle ULPIN lifecycle on mutation: sub-divided parcels receive new ULPINs; parent ULPIN is retired with a full lineage record; amalgamated parcels receive a new ULPIN; the parents are retired with lineage.
- Expose ULPIN lookup and resolution APIs; integrate with the national ULPIN service where published; maintain a mapping register to cross-reference any legacy parcel identifiers.

18.3.7 User Access and Roles

- Role-based access control (RBAC) with, at minimum, the following role classes: Public Citizen (anonymous, limited attributes); Authenticated Citizen (DigiLocker / MobileOTP); Village / Taluk Officer; Revenue Inspector; Surveyor; DoSLR Officer; Line Department Officer (Agriculture, PWD, Urban, etc.); Administrator; Auditor.

- Public / citizen view: parcels, boundaries, Survey No., village / taluk / region context, and non-sensitive metadata; no owner PII.
- Officer view: full RoR attributes, mutation history, cadastral editing tools (subject to role).
- Authentication: SSO for officers where authorised; DigiLocker or OTP-based authentication for citizens; MFA for privileged roles.

Note: Agency shall deliver a Role-Based Permission Matrix as part of SRS, specifying create/read/update/delete/export permissions per role. Matrix to be approved by DoSLR before UAT

18.3.8 Discrepancy and Anomaly Analytics (Visual Support for Officials)

The WebGIS Platform shall provide a GIS analytics layer that compares the RoR record with the cadastral map and shows the differences visually for the review of authorised officials. The capability is a visualisation and analytics tool that supports the existing departmental processes of DoSLR.

- Area variance analysis – for every parcel, compare the RoR-recorded extent with the geometry-computed extent; classify the absolute variance into configurable bands (default: Green $\leq 1\%$, Amber 1–5%, Red $> 5\%$) and render the parcel in the corresponding colour on a dedicated "Variance" map layer.
- Boundary mismatch analysis – overlay the cadastral vector on the drone orthomosaic / high-resolution imagery and flag parcels whose boundary deviates from the visible on-ground feature by more than a configurable tolerance; colour-code the deviation and highlight the specific segment(s) of the boundary at issue.
- Record-map mismatch dashboard – consolidated view of: (i) parcels with missing RoR records; (ii) RoR records with missing geometry; (iii) parcels with duplicate / overlapping geometry; (iv) ULPIN conflicts; (v) classification mismatches; (vi) ownership/tenancy conflicts against Farmer Registry.

- Visual measurements on the map – on-map display of computed parcel area, perimeter, neighbouring parcel extents, centroid coordinates and RoR extent in a side panel and as on-map annotations, so that officials can analyse visually without leaving the map.
- Filter and drill-down – officials shall be able to filter anomalies by region / taluk / village / ward / variance band / anomaly type; each row shall open to a pre-zoomed map view with the issue highlighted.
- Exportable reports – anomaly lists as PDF / Excel; variance heat-maps as print-ready cartographic outputs, so that officials can carry them into their existing departmental processes.

18.4 Module 3: Automated Georeferencing & Field Integration

Module 3 comprises (i) a mobile application for field officers, (ii) a browser-based point ingestion and visual georeferencing workbench inside the WebGIS Platform, and (iii) a server-side engine that consumes inputs from both surfaces and refines the cadastral layer. All DGPS / GNSS control points required for this Module shall be supplied by DoSLR or its separately appointed survey partner and shall be consumed by the Agency. The entire Module 3 shall be built on a fully open-source technology stack.

18.4.1 Mobile Application for Field Integration

- Android application (Android 10 or higher), built on a fully open-source technology stack. Target devices are standard Android tablets and phones used by field officers.
- Map viewing: map view of the cadastral layer, drone orthomosaic and administrative boundaries for the officer's assigned village; parcel search by Survey or Sub-Division number; pan, zoom, measure and parcel attribute display (on a read-only basis).
- DGPS / GNSS point consumption: ingestion of DGPS / GNSS control points supplied by DoSLR or its survey partner over

Bluetooth, NTRIP or file import, for the purpose of on-field georeferencing. The points so consumed shall sync to the WebGIS Platform and feed the automated georeferencing engine and the visual georeferencing workbench.

- Security: on-device encryption; role-based authentication of field officers; and time-limited session tokens.

18.4.2 Web-Based Point Ingestion and Visual Georeferencing

Authorised officials shall be able to perform point ingestion and georeferencing from the browser with the following capabilities:

- Excel / CSV upload of control points – a standard template (ID, description, latitude, longitude, easting, northing, datum, accuracy, source, notes) with validation on upload, preview of rejected rows, and ability to bulk-promote accepted rows into the GCP library for a selected village / cluster.
- Manual coordinate entry – a form where an official can type or paste one or more coordinates (decimal degrees or projected) and drop them as GCPs on the map; visual markers update live.
- Ingestion of mobile-app captured points – DGPS / GNSS points consumed through the mobile application shall stream into the same GCP library in near real time and become immediately visible to web users with appropriate role permissions. Officials shall be able to accept, reject or flag each point with a remark.
- On-map placement and visual verification – ability to pick a GCP on the map, snap it to the drone orthomosaic, and see the cadastral vector "rubber-sheet" in a live preview; transformation type (affine / polynomial / spline / thin-plate spline) shall be selectable with immediate visual feedback and RMSE readout.
- Visual georeferencing of selected parcels / clusters – an officer shall be able to select a parcel, a cluster, or an entire village, pair source points with target points (drag-and-link on the map), and

apply a bounded georeferencing locally without destabilising the rest of the mosaic; dry-run preview is mandatory before committing.

- Audit logging – every web-initiated georeferencing commit shall produce a full audit record (user, timestamp, input points, transformation, RMSE, before/after geometry) equivalent to mobile-initiated edits.

18.4.3 Automated Georeferencing Engine

- Server-side georeferencing pipeline that consumes DGPS / GNSS points (from the mobile app, the web workbench or bulk upload) and drone-orthomosaic anchor points, and re-aligns the affected portion of the cadastral layer in a bounded, explainable way.
- The engine shall support: (a) local re-georeferencing of a village or parcel cluster without destabilising the rest of the mosaic; (b) weight-based merging of multiple inputs (DGPS > drone orthomosaic > legacy reference; Default weights: DGPS=1.0, drone orthomosaic=0.7, legacy reference=0.3, adjustable through admin console with DoSLR approval. Weighting methodology documented in Architecture Document.); (c) dry-run mode for QC before committing; (d) explainability – every edit accompanied by a justification log naming the inputs and transformation.
- Engine-produced edits shall be committed directly after dry-run QC by authorised power users and shall be captured in a full, immutable audit log.

18.5 Expected Deliverables

Sl.	Deliverable	Description
1	Parcel-by-parcel reconstructed, mosaiced and georeferenced cadastral maps	Seamless, QC-accepted vector cadastral layer reconstructed parcel-by-parcel from the original FMB sketches against the drone orthomosaic, covering all villages of Puducherry, Karaikal, Mahe and Yanam, published as OGC WMS / WFS / WMTS services and as downloadable GIS files (Shapefile, GeoPackage, GeoJSON) for DoSLR internal use. Includes the FMB reconstruction register and per-parcel lineage back to the source FMB sheet and page.
2	WebGIS Platform	Hosted, secure, OGC-compliant WebGIS portal with Module-2; accessible over HTTPS; citizen and officer views; full admin console; Discrepancy & Anomaly Analytics module with colour-coded map-versus-record variance visualisation; web-based point ingestion and visual georeferencing workbench; user manuals and API reference.

3	Mobile Application	Android field app built on a fully open-source technology stack, supporting map view of the cadastral layer and orthomosaic, parcel search, and consumption of DGPS / GNSS points supplied by DoSLR or its survey partner; two-way sync of points with the WebGIS, Web-georef workbench.
4	Integrated Database	A unified parcel database with (i) geometry; (ii) RoR attributes; (iii) ULPIN; (iv) Farmer Registry / DCS linkage; (v) mutation history and versioning; hosted on PostgreSQL + PostGIS (or proposed equivalent) with documented schema and migration scripts. Proposed equivalent must be open-source, support OGC spatial operations, and receive prior written approval from DoSLR and NIC before adoption
5	API Integrations	API bundles with DoSLR RoR (Nilamagal) on a bi-directional basis; AgriStack Farmer Registry and Digital Crop Survey (IDEA framework, bi-directional); ULPIN service; DigiLocker; and other line-department systems as directed. Full OpenAPI documentation and SDKs in at least one mainstream

		language shall be supplied.
6	Documentation, Training, Support	SRS, Architecture Document, Deployment Runbook, DR Runbook, Security / Privacy Impact Assessment, User Manuals for each role, Admin Manual, Developer Guide, training plan and training delivery records, help-desk and O&M support artefacts.

18.6 Cross-cutting Technical Requirements

18.6.1 Scalability

- The platform shall be designed for horizontal scalability on cloud or data-centre infrastructure. It shall support: At least 1,000 concurrent authenticated users and At least 500 concurrent anonymous citizen sessions while maintaining: p95 response time ≤ 2 seconds for typical map-based interactions (e.g., pan, zoom, layer toggle, search) under normal operating conditions.
-
- Tile & Feature Services and Data Capacity: The platform shall support automatic horizontal scaling of tile and feature services, with integrated caching mechanisms, including: Content Delivery

Network (CDN) for static and vector tiles Vector tile caching and/or pre-rendered tile cache for high-demand layers The system shall be capable of storing and serving: The complete cadastral dataset of the Union Territory With minimum 5 years of versioned history, supporting temporal queries and rollback

- Capacity plan shall be revisited annually during O&M with headroom $\geq 2 \times$ peak observed demand.

18.6.2 OGC Compliance and Interoperability

- All spatial services shall comply with OGC standards: WMS 1.3.0, WFS 2.0 (with transactions where appropriate), WMTS 1.0.0, WCS 2.0.1, OGC API – Features / Tiles / Maps / Styles; STAC 1.0 for imagery.
- Published APIs shall have OpenAPI 3.x specifications; schema shall be versioned and backward-compatible.
- Data exchange shall support GeoJSON, GML, KML, Shapefile, GeoPackage.
- The platform shall publish a conformance / interoperability matrix and shall be independently validated (e.g., OGC CITE test suite) prior to Go-Live.

Note: OGC CITE validation at Agency's cost, completed minimum 30 days before Go-Live. Failures remediated before Go-Live. NIC Puducherry Unit to witness validation.

18.6.3 Cloud Hosting, Data Residency and Disaster Recovery

This section sets out the detailed cloud hosting, security, disaster recovery, data residency and migration requirements applicable to the entire solution.

- Approved Cloud Service Provider (CSP): the Bidder shall explicitly state the proposed MeitY-empanelled and STQC-audited CSP, its current empanelment / audit reference, and the India region(s) in the Technical Proposal. Proposals on a non-MeitY-audited cloud, a non-Government-approved private cloud, or an on-premise server

that is not a Government Data Centre shall be treated as non-responsive.

- Data residency: all application data, cadastral vectors, imagery, RoR / AgriStack linkages and derived datasets shall reside within India at all times; primary and DR regions shall be within Indian territory; no offshoring, telemetry export, or cross-border replication is permitted. PII and spatial master data shall not leave Indian jurisdiction under any scenario.
- State migration commitment: as and when DoSLR-Puducherry / Government of Puducherry notifies readiness of the State Data Centre (SDC), State Cloud, or any Government-provided infrastructure, the Agency shall migrate the entire workload – application, database, storage, imagery, backups and tooling – to the Government infrastructure within a mutually agreed window (indicative: 90 days) at no additional licence / operational cost. The architecture shall therefore be cloud-portable (no CSP-lock-in in the core path; open-source / OCI-compliant stack; export-friendly database and storage).
- Cloud commercial treatment – pass-through on actuals: the Agency shall procure the CSP subscription in its own name during the period it hosts on the CSP, produce the ORIGINAL monthly CSP invoice (along with usage reports) to DoSLR, and invoice DoSLR for the same amount (at cost, no mark-up, with GST and statutory dues handled per invoice); payment shall be reimbursed by DoSLR on receipt of the CSP invoice and proof of payment or on a back-to-back basis. Cloud hosting is NOT part of the Commercial Bid single-line price and shall NOT be included in Financial Bid Evaluation.

Cloud expenditure requires prior written DoSLR approval. Agency shall submit a monthly cloud budget forecast 30 days before each billing period. Actual invoices must be submitted with Usage Reports for reimbursement.

- Cloud cost governance: the Agency shall publish a monthly cloud usage and FinOps report covering compute, storage, network egress, managed services and support; shall implement tagging, budget alerts, auto-scaling / auto-shutdown of non-production environments; and shall recommend cost-optimisation actions (reserved instances, savings plans, commitments) for DoSLR approval. Benefits of any reserved pricing / committed-use discount shall accrue to DoSLR, not the Agency.
- Disaster Recovery (DR): dual-region deployment within India with $RPO \leq 15$ minutes and $RTO \leq 60$ minutes for Tier-1 services (WebGIS core, read-only RoR data feed, cadastral editing and analytics); daily automated backup plus continuous log-ship for the spatial and attribute databases; quarterly DR drill with published run-book and signed DoSLR acceptance of the drill outcome.
- Business Continuity and Backup: 3-2-1 backup strategy (3 copies, 2 media, 1 offsite within India); object-lock / immutability for at least 30 days on production backups; annual restore test in a pre-production environment with evidence shared with DoSLR; explicit ransomware-recovery playbook.
- Security and compliance (cloud layer): the CSP and the Agency's cloud deployment shall comply with MeitY empanelment controls, CERT-In advisories, ISO/IEC 27001, ISO/IEC 27017 (cloud-specific), ISO/IEC 27018 (PII in cloud) and ISO 22301 (BCM); the Agency shall submit the latest third-party audit / SOC 2 Type II / STQC report of the CSP on request. Cloud Security Posture Management (CSPM), cloud workload protection (CWPP), and cloud-native WAF / DDoS / SIEM integration shall be enabled by default. The cloud control plane shall support MFA, least privilege and hardware key protection for root / privileged identities; any root access event shall raise an alert to DoSLR.

- Data sovereignty, access and exit: DoSLR shall have irrevocable, time-unlimited access to its data; on exit (termination, natural end of contract, or state-migration event) the Agency shall hand over a complete export of application, database and object storage in open, re-importable formats within 30 days, shall destroy residual copies with a signed data-destruction certificate, and shall co-operate with DoSLR's chosen successor (if any) for knowledge transfer and cut-over.

18.6.4 Timelines, Milestones and SLAs

A consolidated milestone and SLA schedule is set out in the Terms of Reference (section 20). The Agency shall propose and maintain a detailed Microsoft Project / equivalent schedule with weekly baselines, and shall publish a monthly project review pack to DoSLR.

19. Roles and Responsibilities

19.1 Authority (DoSLR-Puducherry)

- Nominate a Project Management Team to manage day-to-day activities and issue instructions as required.
- Constitute a Project Evaluation Committee to evaluate performance and take decisions.
- Conduct monthly project reviews; nominate personnel to accept deliverables.
- Review and approve the Agency's implementation plan, quality plan, deliverables, and change requests.
- Provide access to cadastral records, FMB sheets, RoR attributes, drone orthomosaic, ground control points, and other relevant inputs.
- Issue Government Orders and notifications required to effect policy / process changes.

- Coordinate with the Department of Agriculture & Farmers Welfare (DA&FW) and other line departments for API integration agreements.
- DoSLR may audit Agency project records (timesheets, cloud invoices, licence docs, quality records) with 5 working days' written notice.

19.2 Agency (Implementation Partner)

- Deliver the full scope of work as per the three Modules of this RFP within the committed timeline and quality.
- Appoint a Programme Manager as the single point of contact for the engagement. Programme Manager shall have minimum 5 years in GIS/IT project management with at least one completed Government GIS project of comparable scale. Agency shall not replace PM without DoSLR's written consent.
- Ensure adherence to Terms of Reference and schedule of activities.
- Prepare and submit deliverables as per the timeline; conduct in-house and field-based QC.
- Submit periodic progress reports, risk registers, change requests and quality reports to DoSLR.
- Indemnify DoSLR-Puducherry against any third-party IPR claims and statutory violations arising from the Agency's acts or omissions.
- Agency shall notify DoSLR within 4 hours of becoming aware of any security incident or data breach. Full incident report within 72 hours.

19.3 Work Location & Resource Deployment

- The following Scope of work needs to be carried out within the premises of the **Directorate of Survey and Land Records, Puducherry.**

- a) the Geo-referencing of the Ortho-rectified mosaiced 30 cm pan-sharpened image.
 - b) The Digital photogrammetry data processing of the 30 cm Stereo satellite data to produce Digital Elevation Model and Ortho-rectified satellite image.
- For the Geo-referencing of the cadastral maps, the satellite image will be provided as Image Service through web (VPN Connectivity) to the successful bidder(s) to be used as reference image for the geo-referencing work.
 - For the Image processing part of the scope described above, the selected bidder(s) will have to deploy its own hardware, authorised software licenses, internet connectivity at DoSLR premises for executing the part of the scope of work described above.
 - The selected bidder(s) will have to delegate their own manpower to the client, i.e., the Directorate of Survey and Land Records premises for the above mentioned scope of work. The sub-contracting of any part of the assigned work to any third party remains strictly prohibited in any form or manner.
 - For the workstations and local servers (if any) to be deployed by the selected bidder, UPS backups for the systems shall be installed by the selected bidder.
 - DoSLR will provide required space, seating infrastructure, LAN connectivity and electricity for agency-deputed manpower and systems for the project duration.
 - The bidders must submit in their proposal their detail deployment plan including no of systems to be deployed, number of manpower, shift deployment plan (if any) and any other dependency on the Directorate so that Directorate may plan the necessary infrastructure in advance and there is no delay after the selection of the bidder.

The eligible Bidders must submit their manpower list, which contains their detailed CV with experience and qualification details.

20. Terms of Reference and Schedule of Activities

The indicative timeline is 6 months from the award of contract for implementation and 2 years of post-Go-Live O&M thereafter. The contract shall expire three months after completion of the O&M period or upon mutually agreed exit.

Sl No	Activity	Timeline (Months)	Linked Payment Milestone	Deliverable
1	Project mobilisation, SRS, detailed architecture and project plan	0–0.5	20%	Signed SRS, Architecture, Project Plan, Mobilisation Plan
2	Module 1 – Source data collation, FMB sheet preparation and parcel-by-parcel FMB reconstruction	0–3	20%	FMB reconstruction QC report; DoSLR acceptance

3	Module 2 – WebGIS Platform build , including Discrepancy & Anomaly Analytics and AgriStack Farmer Registry + DCS integration) and UAT	1–4	20%	UAT sign-off; platform deployed to Pre-Production
4	Module 3 – Mobile app, web-based point ingestion / visual georeferencing workbench and server-side automated georeferencing engine build + UAT	3–5	15%	UAT sign-off; field + web georeferencing integration report
5	Integrations (RoR / Nilamagal, ULPIN, Farmer Registry, DCS)	4–5	10%	Integration test reports and production cut-over
6	Final acceptance, documentation and handover	5–6	5%	System acceptance test report; all documentation

7	O&M and managed services	6–30	10% (1.25% per quarter)	Quarterly SLA report, monthly CSP invoice + FinOps report, DR drill sign-off, maintenance certificate
---	--------------------------	------	----------------------------------	---

Note: 1) If DoSLR exercises the 24-month extension option, O&M compensation shall continue at 1.25% of original contract value per quarter unless renegotiated in writing 60 days before extension commencement.

2) If a milestone delay is attributable to DoSLR's failure to provide agreed inputs within [X] working days of request, the milestone date shall be extended by the same number of days. LDs shall not accrue during DoSLR-caused delays.

20.1 Contract Period

The implementation period is 6 months from the award of contract, followed by 24 months of O&M, extendable by 24 months at DoSLR's discretion. The contract shall expire three (3) months after completion of the O&M period.

20.2 Penalty Clauses

DoSLR-Puducherry may levy penalties on the Agency for delays in achieving the payment milestones set out in the Schedule of Activities above and for breaches of the service levels set out below. A liquidated damage linked milestone value shall apply for every completed week of delay beyond the committed date of each payment milestone as mentioned below. The Agency shall submit its own detailed time schedule with measurable milestones;

such schedules shall be practicable, reasonable and balanced. The maximum delay permitted for any payment milestone shall be 8 weeks beyond the agreed date, beyond which the agreement is liable for termination and the PBG may be forfeited. The overall penalty / liquidated damages shall not exceed 10% of the contract value. The 10% cap applies to the aggregate of all liquidated damages, deployment penalties, and operational SLA penalties combined over the entire contract duration.

20.2.1 Deployment Service Level Metrics

SI No.	Activity	Time Line (Months)	Penalty Applicable (per week per taluka)
1.	Project mobilisation, SRS, detailed architecture and project plan	0-0.5	Rs. 50,000 for every week of delay
2.	Module 1 – Source data collation, FMB sheet preparation and parcel-by-parcel FMB reconstruction	0-3	Rs. 50,000 for every week of delay
3	Module 2 – WebGIS Platform build , including Discrepancy & Anomaly	1-4	Rs. 50,000 for every week of delay

SI No.	Activity	Time Line (Months)	Penalty Applicable (per week per taluka)
	Analytics and AgriStack Farmer Registry + DCS integration) and UAT		
4	Module 3 – Mobile app, web-based point ingestion / visual georeferencing workbench and server-side automated georeferencing engine build + UAT	3–5	Rs. 50,000 for every week of delay
5	Integrations (RoR / Nilamagal, ULPIN, Farmer Registry, DCS)	4–5	Rs. 50,000 for every week of delay
6	Final acceptance, documentation and handover	5–6	Rs. 50,000 for every week of delay

20.2.2 Operational Service Level Metrics

Sl. No.	Activity	Metric	Penalty Applicable (per week per taluka)	Deliverable
1.	Availability of Application	> 99.5%	0.1% of Quarterly payment for every 0.1% drop	Application availability report
2.	Resolution time of Critical Faults	< 3 hours	Rs. 10,000 for every hour of delay	Incident Handling Report
3	Resolution of Non-Critical Faults	< 48 hours	0.1% of Quarterly payment for every day of delay	Incident Handling Report
4	Map tile p95 response time (pre-cached)	≤ 300 ms	0.25% of quarterly O&M fee for each additional 50ms increment above the 300ms threshold, measured at p95 over the quarter	Test reports

Sl. No.	Activity	Metric	Penalty Applicable (per week per taluka)	Deliverable
5	Mutation ingest turn-around (RoR event received → cadastral layer updated and published)	≤ 24 hours	INR 5,000 per mutation beyond TAT	TAT Report
6	Field app sync success rate	≥ 99% of submissions within 15 min of connectivity	0.25% of quarterly O&M fee per 1% drop	Quarterly Report
7	DGPS point processing TAT (GCPs synced from the mobile application or the web workbench to the cadastral engine queue)	≤ 7 days for 95% of submissions	INR 5,000 per submission beyond TAT	TAT Report

20.3 Project Organization Structure

Roles and Responsibilities of each stakeholder have been mentioned below:

20.3.1 The Director, DoSLR-Puducherry and his subordinates.

- Overall head of this project rollout in the division.
- Head of the division level project monitoring team
- Representative of the departments for high level meetings.
- Monitor the progress of the project on a monthly basis
- Grievance redressal of the Implementing Agency, in case escalated to that level
- Contract signing with Agency.
- Release payment to the agency on successful completion of payment mile stones on the basis of work completion certificate from the concerned Authority.

20.3.2 The National Informatics Centre (NIC), Puducherry Unit

- Provide necessary technical consultancy, advisory support, and oversight for the design and deployment of the WebGIS platform.
- Facilitate secure cloud integration, database connectivity, and backend infrastructure alignment with the national AgriStack reference architecture.
- Oversee the deployment of core APIs and secure single sign-on (SSO) authentication systems for departmental users and field officials.
- Review system integration plans, security compliance structures, and source-code handover protocols to ensure alignment with standard Government of India guidelines.
- Participate in Project Evaluation Committee and technical review meetings to evaluate UAT results and system performance metrics before final production Go-Live.

20.3.3 The Department of Agriculture & Farmers Welfare, Puducherry

- Act as the primary domain stakeholder for agriculture data integration, ensuring absolute synchronization of the central cadastral spine with the farming community database.
- Provide the selected Agency with secure, structured API access to the central Farmer Registry (Farmer ID data maps) and the state Digital Crop Survey (DCS) system.
- Validate the functional integration of tokenized references, consent mechanisms, and lookup functions (Farmer ID ⇔ Parcel) within the WebGIS platform.
- Coordinate with DoSLR to define, test, and accept the digital data validation workflow within the dedicated Online Mutation menu.
- Deploy designated field staff, agricultural officers, and extension workers to participate in joint training, system testing, and operational field spot-checks.

21. Terms and conditions

21.1 Payment terms

The payment would happen upon successful completion of the milestones as per mentioned in Detailed Schedule of Activities on approval and recommendation by monitoring committee. Payment shall be released by the Director on (a) receipt of a completion certificate from the designated accepting authority; and (b) recommendation of the Monitoring Committee. The Monitoring Committee shall be formally constituted by name within 30 days of contract award. The payment for the same shall be made as per the formula given below:

Payment for the milestone= Milestone Value– [applicable penalty as per SLA/penalty clauses]

21.2 Training

The selected Bidder shall conduct training sessions to all concerned staff of the department and the allied offices of the department, a proper training plan should be submitted to the Director, DoSLR-Puducherry for Approval.

21.3 System Deployment

The system shall be hosted and deployed on a cloud-based environment with hiring of servers from the government cloud provider. Cloud hosting charges shall be reimbursed by DoSLR on an actual-cost pass through basis.

21.4 Data Security

The Bidder shall ensure high levels of data security in terms of data accessibility, data transfer, data exchange, data backup and data archival. The system shall ensure compliance to IT Act, DPDP Act and other laws / circulars / guidelines that are relevant to data security.

21.5 System Audit and Compliance

The Bidder shall ensure audit of system including vulnerability assessment, penetration testing, load testing and systemic audit. The charges for the audit activity shall be borne by the bidder. Additionally, the bidder shall ensure yearly audit activities and other security related compliances as required by cloud-service provider. The audit shall be conducted by Cert-In empaneled vendor. VAPT shall be conducted annually and after each major release by a CERT-In empanelled vendor. Full reports shared with DoSLR within 15 days. Critical vulnerabilities remediated within 30 days.

21.6 Changes to Software Application

Any changes to software application shall be incorporated by the bidder at no additional cost if such changes are required to be complied as per statute. If parties cannot agree on change terms within 30 days of a change request, the matter shall be escalated to the monitoring committee for a binding decision within 15 further days.

21.7 Source Code:

The Bidder must handover the Source Code of the software, including the software code written to integrate the external equipment, tools, software etc. whose IPR solely rests with third parties and / or the Bidder, to the DoSLR, Puducherry. The Bidder shall perform the necessary activities which will enable DoSLR to understand the Source Code. The Bidder shall provide DoSLR an unrestricted, perpetual right to modify, adapt, and reuse the source code for any government purpose. The source code escrow arrangement to be established within 30 days of contract award, updated at each major release, and accessible to DoSLR on defined trigger events (insolvency, material breach, contract end).

21.8 Intellectual Property Rights:

(i) The IPR rights for software designed and developed during the implementation of the project will rest with DoSLR. The Bidder shall be entitled to a broad license for the software for its internal usage.

(ii) Except to the extent otherwise expressly provided in this Agreement, DoSLR shall retain exclusive intellectual property rights to the Software, data, forms, compilations and any other material belonging to DoSLR used for the project, supplied and provided to the Bidder by DoSLR, to which DoSLR has sovereign rights and nothing herein shall or will be construed or deemed to grant to the Bidder any right, title, license, sub-license, proprietary right or other

claim against or interest in, to or under (whether by estoppels, by implication or otherwise) to the aforesaid rights.

Note: Non-exclusive, non-transferable, non-sub licensable, royalty-free license for the Agency's internal operational purposes only, and expressly excluding commercial exploitation, sub-licensing, or use in other government tenders

21.9 Termination of the Contract

Director, DoSLR- Puducherry reserves the right to cancel the contract at any time, if not satisfied with the services of the successful bidder or there is breach of any of the condition of the Contract by the successful bidder, provided a period of 10 days has lapsed from the date of serving notice on the successful bidder requiring it to remedy the breach and if the breach has continued up to the date of the termination. In this event, the work done till then by the successful bidder shall be taken over by DoSLR - Puducherry. DoSLR –Puducherry reserves the right to appoint a new bidder and hand over to him the all the documents to complete the assignment. In such an event, the successful bidder shall not be entitled to receive any payments upon termination of the contract. In such case, upon termination, DoSLR–Puducherry may also impose liquidated damages. Notwithstanding anything to the contrary contained in the Contract successful bidder's collective liability arising out relating to agreement shall be limited to the fees paid to the successful bidder for which decision of the Director, DoSLR- Puducherry in this regard shall be final and binding on the successful bidder. The cap shall not apply to: (a) IPR infringement indemnities; (b) data protection breaches; (c) fraud or wilful misconduct. The successful bidder will be required to pay any such liquidated damages to DoSLR- Puducherry within 30 days of termination date.

21.10 Risk Purchase Clause

In case the successful bidder fails to execute the project as stipulated in the delivery schedule; Director, DoSLR- Puducherry reserves the right to

procure the similar services from alternate sources at the risk, cost and responsibility of the successful bidder.

21.11 Indemnity

The successful bidder shall indemnify, protect and save DoSLR-Puducherry against all claims, losses, costs, damages, expenses, action suits and other proceeding, resulting from infringement of any patent, trademarks, copyrights etc. or such other statutory infringements in respect of all components (like system software, software tools, hardware etc.) and the services rendered under this tender.

21.12 Performance Obligations

While providing services as per Scope of Work, the successful bidder shall ensure that there is no infringement of any patent or design rights or violate any intellectual property or other right of any person or entity and shall comply with all applicable Laws, Statute, regulations and Governmental requirements and he/she shall be solely and fully responsible for consequence / any actions due to any such infringement.

21.13 Force Majeure

1. Force Majeure would include natural and unavoidable catastrophe that interrupts the expected course of events.
2. The bidder shall not be liable for penalty, liquidated damages or termination for default, if and to the extent that, his delay in performance or other failure to perform his obligations under the contract is the result of an event of Force Majeure.
3. For purposes of this clause, “Force Majeure” means an event beyond the control of the bidder and not involving the bidder’s fault or negligence and not foreseeable. Such events may include, but are not restricted to, instances of, wars or revolutions, fires, floods, epidemics, quarantine

restrictions and freight embargoes which would have an impact on monitoring committee and DoSLR-Puducherry.

4. If a Force Majeure situation arises, the bidder shall promptly notify monitoring committee and DoSLR –Puducherry in writing of such conditions and the cause thereof, the bidder shall seek all reasonable alternative means for performance not prevented by the Force Majeure event.

5. The Force Majeure circumstances and events shall include the following events to the extent that such events or their consequences (it being understood that if a causing event is within the reasonable control of the affected party, the direct consequences shall also be deemed to be within such party's reasonable control) satisfy the appropriate definition as per this agreement.

Without limitation to the generality of the foregoing, Force Majeure Event shall include the following classes of events and circumstances and their effects:

a. Natural events (“Natural Events”) to the extent they satisfy the foregoing requirements including:

- Any material effect on the natural elements, including lightning, fire, earthquake,
- cyclone, flood, storm, tornado, or typhoon;
- Explosion or chemical contamination (other than resulting from an act of war);
- Epidemic such as plague;
- Any event or circumstance of a nature analogous to any of the foregoing

b. Other Events (Political Events) to the extent that they satisfy the foregoing requirements including:

- Act of war (whether declared or undeclared), invasion, armed conflict or act of foreign enemy, blockade, embargo, revolution, riot, insurrection, civil commotion, act of terrorism or sabotage;

- Strikes, work to rules, go-slows which are either widespread, nation-wide, or state-wide and are of political nature;
- Any event or circumstance of a nature analogous to any of the foregoing

21.14 Arbitration and Resolution of disputes

Any dispute arising out of or in connection with the Contract shall in the first instance be dealt with mutual negotiations. Any dispute or difference whatsoever arising between the parties to the Contract out of or relating to the construction, meaning, scope, operation or effect of this Agreement or the validity of the breach thereof, which cannot be resolved through mutual negotiations, shall be referred to DoSLR –Puducherry by steering and monitoring committee where subject of dispute arises. The attempt to bring about an amicable settlement is considered to have failed as soon as one of the Parties hereto, after reasonable attempts [which attempt shall continue for not less than 30(thirty) days], give 30 days notice thereof to the other party in writing. Notice of failure shall not be served until the 30-day minimum negotiation period has fully elapsed.

In case the dispute or difference is still not resolved then it will be taken to the committee comprising of

- Principal Secretary/Secretary – Finance, Government of Puducherry
- Principal Secretary/Secretary – Revenue, Government of Puducherry and
- Principal Secretary/Secretary – Information Technology, Government of Puducherry
- Principal Secretary/Secretary – Agriculture, Government of Puducherry

The provisions of the Arbitration and Conciliation Act, 1996 will be applicable and the award made there under shall be final and binding upon the parties hereto, subject to legal remedies available under the law. Such differences shall be deemed to be a submission to arbitration under the

Indian Arbitration and Conciliation Act, 1996, or of any modifications, Rules or reenactments thereof.

The Arbitration proceedings will be held at Puducherry, India .It will be the parties' and arbitrator/s endeavor to finalize proceedings within 60 days. The proceedings of arbitration shall be in English language. The Department may terminate this Contract, by giving a written notice of termination of minimum 30 days, to the Bidders if the Bidders fail to comply with any decision reached consequent upon arbitration proceedings.

21.15 Subject Laws and Jurisdiction

The Contract shall be governed by Indian Laws and the Courts in the Union Territory of Puducherry will have jurisdiction to entertain the dispute(s).

21.16 Exit Management

The Bidder shall provide to DoSLR, Puducherry, Government of Puducherry with a recommended exit management plan ("Exit Management Plan") which shall deal with at least the following aspects of exit management in relation to the Service Agreement as a whole and in relation to the Project Execution SLA.

- A detailed program of the transfer process that could be used in conjunction with a Replacement Bidders including details of the means to be used to ensure continuing provision of the services throughout the transfer process or until the cessation of the services and of the management structure to be used during the transfer; and
- Plans for the communication with such of the Bidder's staff, suppliers, customers and any related third party as are necessary to avoid any material detrimental impact on DoSLR - Puducherry, Government of Puducherry operations as a result of undertaking the transfer; and(if applicable) proposed arrangements for the segregation of the Bidder's networks from the networks employed by Government of Puducherry,

or the Replacement Bidders and identification of specific security tasks necessary at termination; and

- Plans for provision of contingent support to DoSLR – Puducherry and/or the Replacement Bidders for a reasonable period after transfer for the purposes of providing service for replacing the Services. Each Exit Management Plan shall be presented by the Bidders to DoSLR and shall be approved by DoSLR, Government of Puducherry and its nominated agencies.
- Plan for handing over of source code, licenses, data and documents to DoSLR with intellectual property rights.
- On exit of Agency all exit rights will be with DoSLR- Puducherry, Government of Puducherry.
- Draft Exit Management Plan shall be submitted within 60 days of contract award, finalised within 30 days of DoSLR review, and updated annually

Annexure E - Draft Non - Disclosure Agreement

(On stamp paper of INR 100/-)

This Non-Disclosure Agreement ("Non-Disc") is made and entered into ____ day of ____ month _____ year (effective date) by and between _____ ("DoSLR-Puducherry") and _____ ("Company") Whereas, DoSLR-Puducherry and Company have entered into a Contract ("Contract") <Agreement Reference Number>effective <from Date>for <Period>; and Whereas, each party desires to disclose to the other party certain information in oral or written form which is proprietary and confidential to the disclosing party, ("CONFIDENTIAL INFORMATION").

NOW,THEREFORE, in consideration of the foregoing and the covenants and agreements contained herein, the parties agree as follows:

E.1 Definitions As used herein:

(a) The term "Confidential Information" shall include, without limitation, all information and materials, furnished by either Party to the other in connection with citizen /users /persons/ customers data, products and/or services, including information transmitted in writing, orally, visually, (e.g. video terminal display) or on magnetic or optical media, and including all proprietary information, customer & prospect lists, trade secrets, trade names or proposed trade names methods and procedures of operation, commercial or marketing plans, licensed document knowhow, Ideas, concepts, designs, drawings, flow charts, diagrams, quality manuals, checklists, guidelines, processes, formulae, source code materials, specifications, programs, software packages, codes and other intellectual property relating to the disclosing party's data, computer database, products and/or services. Results of any tests, sample surveys, analytics, data mining exercises or usages etc. carried out by the receiving party in connection with the Department's Information including citizen/users/persons/customers personal or sensitive personal information as defined under any law for the time being in force shall also be considered Confidential Information.

(b) The term, “DoSLR, PUDUCHERRY” shall include the officers, employees, agents, consultants, contractors and representatives of DoSLR, Puducherry.

(c) The term, “Company” shall include the directors, officers, employees, agents, consultants, contractors and representatives of Company, including its applicable affiliates and subsidiary companies.

E.2 Protection of Confidential Information

With respect to any Confidential Information disclosed to it or to which it has access, Company affirms that it shall:

(a) Use the Confidential Information as necessary only in connection with Project and in accordance with the terms and conditions contained herein;

(b) Maintain the Confidential Information in strict confidence and take all reasonable steps to enforce the confidentiality obligations imposed hereunder, but in no event take less care with the Confidential Information than the parties take to protect the confidentiality of its own proprietary and confidential information and that of its clients;

(c) Not to make or retain copy of any commercial or marketing plans, citizen/users, persons/customers database, Proposals developed by or originating from DoSLR Puducherry or any of the prospective clients of DoSLR-Puducherry except as necessary, under prior written intimation from DoSLR-Puducherry, in connection with the Project, and ensure that any such copy is immediately returned to DoSLR-Puducherry to do so;

(d) Not disclose or in any way assist or permit the disclosure of any Confidential Information to any other person or entity without the express written consent of the other party; and

(e) Return to the other party, or destroy, at DoSLR-Puducherry’s discretion, any and all Confidential Information disclosed in a printed form or other permanent record, or in any other tangible form (including without limitation, all copies, notes, extracts, analyses, studies, summaries, records

and reproductions thereof) immediately upon the earlier to occur of (i) expiration or termination of either party's engagement in the Project, or (ii) the request of the other party therefore.

(f) Not to discuss with any member of public, media, DoSLR-Puducherry, any or any other person about the nature of arrangement entered between DoSLR-Puducherry and Company and the nature of services to be provided by the Company to the DoSLR-Puducherry.

E.3 Onus.

Company shall have the burden of proving that any disclosure or use inconsistent with the terms and conditions hereof falls within any of the foregoing exception.

E.4 Exceptions.

These restrictions as enumerated in section 1 of this Agreement shall not apply to any Confidential Information:

(a) Which is independently developed by Company or lawfully received from another source free of restriction and without breach of this Agreement; or

(b) After it has become generally available to the public without breach of this Agreement by Company; or

(c) Which at the time of disclosure to Company was known to such party free of restriction and evidenced by documentation in such party's possession; or

(d) Which DoSLR-Puducherry agrees in writing is free of such restrictions.

(e) Which is received from a third party not subject to the obligation of confidentiality with respect to such Information.

E.5 Remedies. Company acknowledges that,

(a) any actual or threatened disclosure or use of the Confidential Information by Company would be a breach of this agreement and may cause immediate and irreparable harm to DoSLR-Puducherry

(b) Company affirms that damages from such disclosure or use by it may be impossible to measure accurately; and

(c) injury sustained by DoSLR, Puducherry may be impossible to calculate and remedy fully.

Therefore, Company acknowledges that in the event of such a breach, DoSLR-Puducherry shall be entitled to specific performance by Company of Company's obligations contained in this Agreement. In addition, Company shall indemnify DoSLR-Puducherry of the actual and liquidated damages which may be demanded by DoSLR-Puducherry. Moreover, DoSLR-Puducherry shall be entitled to recover all costs (including reasonable attorney's fees) which it or they may incur in connection with defending its interests and enforcement of legal rights arising due to a breach of this agreement by Company.

E.6 Need to Know.

Company shall restrict disclosure of such Confidential Information to its employees and/or consultants with a need to know (and advise such employees of the obligations assumed herein), shall use the Confidential Information only for the purposes set forth in the Agreement, and shall not disclose such Confidential Information to any affiliates, subsidiaries, associates and/or third party without prior written approval of the disclosing party.

E.7 Intellectual Property Rights Protection.

No license to a party, under any trademark, patent, copyright, design right, mask work protection right, or any other intellectual property right is either granted or implied by the conveying of Confidential Information to such party.

E.8 No Conflict.

The parties represent and warrant that the performance of its obligations hereunder do not and shall not conflict with any other agreement or obligation of the respective parties to which they are a party or by which the respective parties are bound.

E.9 Authority.

The parties represent and warrant that they have all necessary authority and power to enter into this Agreement and perform their obligations hereunder.

E.10 Dispute Resolution.

If any difference or dispute arises between the DoSLR-Puducherry and the Company in connection with the validity, interpretation, implementation or alleged breach of any provision of this Agreement; any such dispute shall be referred to the DoSLR-Puducherry.

- (a) The arbitration proceedings shall be conducted in accordance with the (Indian) Arbitration & Conciliation Act, 1996 & amendments thereof.
- (b) The place of arbitration shall be Puducherry.
- (c) The arbitrator's award shall be substantiated in writing and binding on the parties.
- (d) The proceedings of arbitration shall be conducted in English language.
- (e) The arbitration proceedings shall be completed within a period of 180 days from the date of reference of the dispute to arbitration.

E.11 Governing Law.

This Agreement shall be interpreted in accordance with and governed by the substantive and procedural laws of India and the parties hereby consent to the exclusive jurisdiction of Courts and/or Forums situated at Puducherry and Madras High Court, India only.

E.12 Entire Agreement.

This Agreement constitutes the entire understanding and agreement of the parties, and supersedes all previous or contemporaneous agreement

or communications, both oral and written, representations and under standings among the parties with respect to the subject matter hereof.

E.13 Amendments.

No amendment, modification and/or discharge of this Agreement shall be valid or binding on the parties unless made in writing and signed on behalf of each of the parties by their respective duly authorized officers or representatives.

E.14 Binding Agreement.

This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

E.15 Severability.

It is the intent of the parties that in case any one or more of the provisions contained in this Agreement shall be held to be invalid or unenforceable in any respect, such provision shall be modified to the extent necessary to render it, as modified, valid and enforceable under applicable laws, and such invalidity or unenforceability shall not affect the other provisions of this Agreement.

E.16 Waiver.

If either party should waive any breach of any provision of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision hereof.

E.17 Survival.

Both parties agree that all of their obligations undertaken herein with respect to Confidential Information received pursuant to this Agreement shall survive until perpetuity even after any expiration or termination of this Agreement.

E.18 Non-solicitation.

During the term of this Agreement and thereafter for a further period of two (2) years Company shall not solicit or attempt to solicit DoSLR-Puducherry, its employees and/or consultants, for the purpose of hiring/contract or to proceed to conduct operations/business similar to DoSLR-Puducherry with any employee and/or consultant of the DoSLR-Puducherry who has knowledge of the Confidential Information, without the prior written consent of DoSLR-Puducherry. This section will survive irrespective of the fact whether there exists a commercial relationship between Company and DoSLR-Puducherry.

E.19 Term.

Subject to aforesaid section 17, this Agreement shall remain valid up to 10 years from the “effective date”.

IN WITNESS HEREOF, and intending to be legally bound, the parties have executed this Agreement to make it effective from the date and year first written above.

Annexure F - Performance Bank Guarantee Format

(On stamp paper of INR 100/-)

Bank Guarantee No. _____

Date: _____

To,

Dear Sir,

Whereas <<Name of the System Integrator Agency>>having its corporate office at <<Address of the System Integrator Agency>>(hereinafter called "System Integrator Agency"), has undertaken, in pursuance of Contract dated<<Date>>(hereinafter referred to as the Contract) for project – "REQUEST FOR PROPOSAL FOR SELECTION OF AGENCY FOR IMPLEMENTATION OF GIS PLATFORM FOR LAND RECORDS PREPARATION, MANAGEMENT & DISSEMINATION IN THE UNION TERRITORY OF PUDUCHERRY".

AND WHEREAS, it has been stipulated in the said Contract that the System Integrator Agency shall furnish a Bank Guarantee ("the Guarantee") from a nationalized / Scheduled Commercial bank for the sum of<<Amount>><<Amount in words>>as security for project – "REQUEST FOR PROPOSAL FOR SELECTION OF AGENCY FOR IMPLEMENTATION OF GIS PLATFORM FOR LAND RECORDS PREPARATION, MANAGEMENT & DISSEMINATION IN THE UNION TERRITORY OF PUDUCHERRY".

AND WHEREAS <<Name of Bank and Name of Branch>>(Hereinafter referred to as the "Bank" which expression shall unless repugnant to the context or contrary to the meaning thereof, include its successors and assigns) have agreed to give the <<Name of the Purchaser >> (hereinafter called "Purchaser") the Guarantee.

THEREFORE, the Bank hereby agrees and affirms as follows:

1. The Bank hereby irrevocably and unconditionally guarantees the payment of all sums due and payable by the System Integrator Agency to DoSLR,

PUDUCHERRY under the terms of the said Contract. Provided however that the maximum liability of the Bank towards DoSLR, PUDUCHERRY under this Guarantee shall not, under any circumstances, exceed <<Amount>><<Amount in words>>in aggregate.

2. In pursuance of this Guarantee, the Bank shall, immediately upon the receipt of a written notice received by us during normal banking hours, on or before <<Date>>from DoSLR, PUDUCHERRY in that behalf and without delay, demur or setoff, pay to DoSLR, PUDUCHERRY any and all sums demanded under this guarantee by DoSLR, PUDUCHERRY under the said demand notice, subject to the maximum limits specified in Clause 1 above. A notice from DoSLR, PUDUCHERRY to the Bank shall be sent by registered post (acknowledgement due) at the following address, which should be received by the Bank, on or before <<Date>>.

Name of Bank _____

Name of Branch _____

Address of Branch _____

3. This Guarantee shall come into effect immediately upon execution and shall remain in force up to<<Date>>The Bank may at its sole discretion extend the Guarantee for a further period which may be mutually decided by the System Integrator Agency and DoSLR, PUDUCHERRY, provided we are in receipt of a written notice received by us during normal banking hours, on or before <<Date>>The liability of the Bank under the terms of this Guarantee shall not, in any manner whatsoever, be modified, discharged or otherwise affected by:

- Any change or amendment to the terms and conditions of the contract or the execution of any further contracts.
- Any breach or non-compliance by the System Integrator Agency with any of the terms and condition of any Contract/credit arrangement, present or future between the System Integrator Agency and the

Bank, provided that nothing herein above will enlarge or extend the liability of the Bank under this Guarantee.

4. The Bank shall not be released of its obligations under these presents by reason of any act of omission or commission on the part of DoSLR, PUDUCHERRY or any other indulgence shown by DoSLR, PUDUCHERRY or any other matter whatsoever which under the law, but for this provision, have the effect of relieving the bank provided that nothing herein above will enlarge or extend the liability of the Bank under this guarantee. Any part payment made by the Bank under this Guarantee shall proportionately reduce the amount outstanding under this guarantee.

5. This Guarantee will be subject to Indian law and jurisdiction of courts in Puducherry and Madras High Court.

6. Notwithstanding anything contained above:

i) Our liability under this bank guarantee shall not exceed <<Amount>><<Amount in words>>.

ii) This bank guarantee shall be valid up to <<Date>>and

iii) We are liable to pay the guaranteed amount or any part thereof under this bank guarantee only and only if we receive a written claim or demand on or before <<Date>>.And if no such claim is received by us by the date mentioned as aforesaid, then all rights of the DoSLR, PUDUCHERRY under this guarantee shall cease.

7. The beneficiary should seek confirmation of issuance of this guarantee from the controlling office of the issuing branch which is Name of Branch

8. We Name of Bank lastly undertake not to revoke this guarantee during its currency except with the previous consent of the Government in writing

Annexure J

RFP ACKNOWLEDGEMENT & COMPLIANCE DECLARATION

To
The Director,
Directorate of Survey & Land Records,
No. 505, Revenue Complex,
Kamaraj Salai, Saram,
Puducherry - 605013.

Sub: Declaration of Comprehensive Review and Unconditional Acceptance of Tender Terms – RFP for Selection of Agency for Implementation of GIS Platform for Land Records Preparation, Management & Dissemination in the Union Territory of Puducherry (Tender Reference No. M-13/1237/2025).

Dear Sir,

We, M/s. [Insert Company Name], hereby solemnly declare that we have carefully read, reviewed, and fully understood every single page, clause, definition, and technical requirement detailed in this RFP. We confirm that our submission has been prepared after an exhaustive evaluation of all 3 Modules, delivery timelines, operational metrics, and governance frameworks specified by DoSLR.

We explicitly declare our meticulous review of the tender documentation and confirm that our bid is submitted with full accountability for all stipulations, adjustments, and criteria across all pages of the RFP document. We provide our unconditional acceptance to completely abide by the entire Scope of Work comprising Modules 1, 2, and 3, including core mandates such as parcel-by-parcel FMB reconstruction, exclusive utilization of an open-source technology stack, and strict adherence to non-subcontracting clauses. Furthermore, we fully accept all on-premise infrastructure and logistics requirements, standing committed to deploying our own hardware, authorized software licenses, and dedicated technical manpower directly at the DoSLR premises to execute the designated image processing and georeferencing milestones. To ensure seamless operational coordination and prompt technical assistance throughout the contract period, we explicitly commit to establishing a functional, fully operational project support office inside the Union Territory of Puducherry within 45 days of the contract award, which will be staffed with a minimum of three qualified support engineers and a dedicated GIS expert.
